Residents On Henry Street Petition Council For Sidewalk Replacement

Plan of Rodgers Sub-Division Receives Approval — Purchase Land For Dump

A petition from several citizens on Henry Street for the replacement of the sidewalk from the bridge to Elizabeth St. was presented to the Village Council at its regular monthly meeting on Monday night. J. V. Holt presented the petition and spoke in favour of the project. He pointed out that the petitioners were only seeking the replacement of this walk which was destroyed when the south end approach was constructed for the new bridge. Members of Council were favourable to the petition and action will be taken to have the project included in the winter works program. However it was the opinion of Council that the work should be completed in the current month.

Reeve G. Mouck presided and Councillors G. B. Noble, Jas. Chambers, B. Jones and R. Anderson were in attendance.

J. Hall, of Procter & Redfern, Consultant engineers, enlightened members of Council on several matters concerning the Highway reconstruction work. The steel, which had been holding up the bridge work, had been promised for delivery this week, while paving operations had been suspended because of what was alleged as faulty workmanship. Councillor Jones inquired concerning the disposition of a pile of earth left at the southern point of Coronation Park and on being informed that the contractor had left it there on request of the Horticultural Society, Council delegated Mr. Jones to investigate the matter.

Subdivision Approved

D. W. Rodgers waited upon Council with respect to the Rodgers subdivision. A communication from the Department of Municipal Affairs asking for a clearance from Council for final approval of the plan stemmed a lengthy discussion. Mr. Rodgers stated his willingness to meet the requirements and tabled a letter of intent, which he would have officially signed and witnessed and returned to the Clerk with the required cheque.

On motion of Councillors Jones and Noble Council accepted the plan with the letter of intent and the necessary approval will be forwarded the Department.

A communication from the Ontario Department of Highways enumerated the various highway signs on which Council would be subsidized.

On motion of Councillors Noble and Chambers the Reeve was authorized to issue a proclamation re Fire Prevention Week, Otcober 7th to 13th.

Purchase Land For Dump

An offer from the Stirling Agricultural Society to sell 1½ acres for an extension to the present village dump, was accepted on motion of Councillors Noble and Jones.

A communication from Toronto Star expressing their desire to cooperate in solving the problem of paper wrappings etc. left on the streets by newsboys was tabled. Clerk Pollock stated representatives of the Toronto Telegram had called at his office personally to discuss the matter and offer their co-operation but no word had been received from the Belleville daily. This situation has been a problem for succeeding Councils and unless it is satisfactorily solved the newsboys may find themselves getting their papers outside the village limits. The consensus of Council is that newspapers should have sufficient control over their carrier boys to solve the problem.

A letter was tabled signed by several citizens concerning the plebiscite for a liquor outlet.

The report of Police Chief D. Ketcheson was tabled and accepted.

The matter of a culvert at the corner of Wellington and North Streets was left in the hands of the streets committee.

Bylaws re an agreement with the Ontario Department of Highways and the Ontario Liquor Control Board were given their several readings and passed with Councillor G. B. Noble in the chair.

The following accounts were passed for payment on motion of Councillors Anderson and Jones:

A very pleasant surprise took place on Saturday evening when about sixty relatives, friends and neighbours of Mr. and Mrs. John McInroy gathered in the Sunday School Room of St. Andrew's Presbyterian Church, West Huntingdon, to honour them on the occasion of their silver wedding anniversary.

The bride and groom of twenty-five years were seated at a table, decorated with pink and white bells and streamers, autumn flowers and an anniversary cake in white and silver.

Mr. T. D. Dodds was chairman for a short programme. He voiced congratulations and best wishes from those present and wished the honoured couple many more happy years to come. Mrs. Stewart Hoover gave a reading, "Leatha's First Beau."

A mock wedding followed with amusing costumes and antics which was enjoyed by all.

Travel Talk on World's Fair Much Appreciated by AOTS Members

Sid MacDonald Speaker At Monthly Meeting Held At St. Paul's On Wed. Night

Over thirty members of the AOTS Men's Club of St. Paul's United Church formed an appreciative audience for a travel talk by Mr. Sid MacDonald at the Club's regular monthly meeting on Wednesday night.

Mr. MacDonald had chosen slides of the Seattle World's Fair and of Victoria, British Columbia, which he had taken during his trip in July. His special interest in the United States Federal Government's science building at the fair was revealed through a series of pictures and interesting commentary. The views from the famous "space needle" gave the audience a good chance to become better acquainted with the City of Seattle and its environs.

However attractive Seattle was to the Stirling travellers, Mr. MacDonald made it clear that he was especially proud to be a Canadian while he inspected the Canadian exhibit at the Fair. He felt that Canada, Great Britain and the United States were very practical in their exhibits, whereas many of the other countries emphasized to a great extent what they would produce at some distant date.

Mr. Grant Potter was in charge of making the arrangements for Mr. MacDonald's part in the meeting.

Mr. Harold Hagerman presided over a sing-song with President W. Camm at the piano.

For the study period the Rev. P. J. Hommersen introduced the book "The Word and the Way." This book will be used at each month's meeting as a source of spiritual enrichment.

Elwood Bateman and Fred Bateman looked after the attendance chart and fellowship report. Mr. Carl Potter brought the members up to date on the club's finances, and the secretary, Francis Lyons, read the correspondence.

Arrangements were made by Allan Wells and Max Maguire for the sale of Hallowe'en kisses to help raise funds for the support of an African student now attending university in Canada.

The AOTS members are planning a trip to Cardiff on October 14th to assist in the church service on the Rev. Paul Packman's charge.

A pleasant feature of the meeting was the presentation of the Past President's pin to Jack Bush by the President Wendell Comm.

Mrs. Grant Richardson and members of her U.C.W. group assisted in serving the pot-luck supper that preceded the meeting.

A Letter To The Editor

Following is a copy of a letter sent to Stirling Village Council:

Gentlemen:

We note that at a recent meeting of the Council the Village Clerk had been instructed to prepare a by-law relative to holding a liquor plebiscite.

We would point out to Council that inasmuch as 25 per cent of the eligible voters have not requested this plebiscite that the Council is assuming the full responsibility for the cost of this plebiscite, a cost which is not necessary and which inevitably will be passed on to the tax payers of this village. With taxes at an all time high we feel that this expense is not necessary and that Council should reconsider its decision on this matter.

We would point out that even though this vote may be taken during a municipal election the costs are still double because this vote must be administered under a separate act, which requires a separate voters' list, separate election officers and separate ballot boxes. This dual vote could also result in confusion among the voters.

It is our considered opinion that the Council should demand that a petition containing 25 per cent of the eligible voters be submitted or the request for a plebiscite turned down. In this way the Council cannot be accused of forcing a vote which many people feel is not necessary.

We have requested that a copy of this letter be printed in the local paper.

Yours truly,

Grant Potter, D. R. Williams, A. R. Wannamaker, Harold Wells, Sidney MacDonald, Maurice Bell, Harold C. Bird.

Junior Football Team Successful In Madoc

(By Lois Morton)

On Wednesday, September 26th the Stirling High School Junior Football team came home with a victory, as they defeated Madoc 14-7.

Stirling started rather slowly, but got better as the game progressed. They opened early in the first quarter with two points after trapping a Madoc player in his own zone, the tackle being made by John Bateman.

Madoc got back for one point by their "Big Bernard" midway through the second quarter.

Stirling began to try to hold their opposition seemingly trying to cling on to that one point lead, but their attempts were foiled when late in the third quarter Madoc's "Big No. 7" Larry Bernard, ran through the Stirling attackers for a touchdown.

After this touchdown, our boys came alive, realizing they were behind and began displaying some brilliant plays on the field. Ken Smith sparked the team in the fourth quarter with his interceptions and carrying the ball. He sent Fred McAdam in for a touchdown midway through the quarter. Stirling never looked back and a few minutes later McAdam again received the ball from Smith and raced 45 yards to get Stirling's last touchdown, thus winning the game.

A Bad Defeat

Our High School Senior Football team
Lost another game,
The score was thirty-two to nil,
Marmora brought them shame.

There's no need for any details,
In this bad defeat . . .
Hope the boys have some good luck
When next a team they meet.

Honour Memory of Ern Ward, Picton

At the last meeting of Picton Encampment I.O.O.F, No. 72, an impressive ceremony was held when the charter was draped in memory of Patriarch Ern Ward. The service was conducted by Chief Patriarch Ray Hicks who was assisted by Past Grand Patriarch Ralph Hubbs and Patriarch Colin Smithyman, High Priest. A favourite hymn of the late Mr. Ward, "The Old Rugged Cross," was led by Patriarch Fred Howes and a minute of silence observed in tribute to one who has been a valued member. —Picton Gazette.

"What wisdom can you find that is greater than kindness?" asked Jean Jacques Rousseau.

We long to see your smiling face,
And wish that you were here.

We have her in our hearts.

Bank of Montreal Winner of Advertising Award

Top rating among Canada's eight chartered banks has been given to the Bank of Montreal for its advertising, according to a survey of financial advertising conducted by Vincent Edwards and Co., New York.

The B of M also ranks sixth among the 15,000 banks in North America, as reported in the annual "Bank Ad-Views," review of Canadian and U.S. financial advertising.

The Bank of America (San Francisco) placed first among all North American banks.

First 14 Times

With the exception of only three years in the past 17, the B of M has been rated first among Canadian banks in the "Bank Ad-Views" survey and has received a "Socrates Award" each year. In 1946 and 1954, the bank ranked first in North America and received the "Socrates High Award of the Year."

The B of M's new advertising award follows the winning of an "award of excellence" in the "PR in Print" awards programme of the Canadian Public Relations Society, for its currency guide prepared for use by travellers to the Caribbean area.

Sprinkling cold rolls with water just before popping them into the oven to warm, will ensure an extra measure of moist freshness, say home economists at Macdonald Institute, Guelph.

A quick and easy way to flour chicken for pan-frying is to combine the flour- salt and pepper and other seasonings in a paper or plastic bag. Place the washed and wiped chicken parts in the bag one at a time, and shake. This, say home economists, will produce a lightly and evenly floured piece of meat, all ready for frying.

French-fried onion rings are a marvelous accomplishment to steaks and chops alike. Dip ¼ inch thick onion slices in a fritter batter and deep fry at 375 degs. F. until the batter is a golden brown.

• • •

Commercial pancake mix makes an excellent coating for foods to be deep fried, say home economists at Macdonald Institute, Guelph. Mix with water, thick enough to cling to the meat, vegetable or fruit to be deep-friend. When applied dry, it serves as a handy substitute for flour for pan-frying meat and fish.

NEWS FOR THE BUSY FARMER

Furrow and Fallow By Fairbairn

"The present system of distribution and sale of farm machinery and parts has fallen short of the requirements of purchasers," the Ontario Federation of Agriculture last week told the Select Committee set up by the Department of Agriculture to enquire into the need for a farm machinery act. The federation expanded its legislation that will provide for licensing of dealers as well as manufacturers and wholesale outlets, independent testing and publication of results of tests of all farm machines and a thorough overhauling of the present system of parts distribution.

The OFA claims there is dissatisfaction with the service on repair parts and backed up its claim by presenting a long list of examples of delay in supplying repair parts to farmers and the results of such delay in loss of time and inconvenience, as well as actual loss of income. There are very few farm people who are not personally aware of such delays. The federation did not blame the local dealer anymore than the manufacturer or wholesaler for these delays. It asks that each farm machinery manufacturer maintain at least one complete parts depot in Ontario which would stock parts for a minimum of ten years from date of sale of new implements, and that these depots be manned by at least a skeleton staff on Saturdays and holidays during the farm production season.

The OFA recognized that the entry of a number of "short-line" companies, especially foreign companies, into the market adds another dimension to the problem. "In many cases," says the Federation, "these companies have failed to provide adequate parts depots within ready reach of dealers or purchasers." A Farm Machinery Act, providing for licencing of all dealers would, in considerable measure, solve this problem, as well as bring to an end the "fence-corner" dealership which provides service of a very inferior order.

Another suggestion put forth by the Federation of Agriculture was for a requirement that minimum standards for the proper servicing of farm machinery be set, both in respect to the qualification of mechanics and facilities required.

The OFA also claims there is dissatisfaction with the quality and performance of agricultural machinery and a desire for unbiased, authoritative testing. There is no doubt that some farm machinery is inferior, but there is also much good equipment available and many companies maintain extensive and intensive testing programmes. Perhaps those companies would not object to some method of independent testing, especially if it might lead to the elimination of some of the cheap competition.

The federation was quite busy last week with a Member's meeting making plans for the annual meeting November 12-14 in Toronto and spending considerable time on resolutions dealing with hogs. The federation would like to eliminate garbage-feeding and is asking for immediate stiffening of the penalties for feeding uncooked garbage and more rigid enforcement. Also, the OFA requests a close co-operation between the Canada Department of Agriculture and the USDA to control and eventually eliminate hog cholera. It would like to have the $3.00 premium on Grade A hogs restored as soon as possible. There have been 4% more Grade A hogs marketed in Ontario in the year that the increased premium has been paid.

Today's Tidbit

Dairy farmers can now buy a Cowculator — a portable, electronic device which accurately determines the most efficient method of feeding dairy cows.

Treating of Wheat Seed

Treat wheat seed with a mercurial or chlorobenzene seed dressing to control common bunt, advises Professor C. B. Kelly of the Department of Botany at the Ontario Agricultural College. Spores of the common bunt fungus stick to the outside of the seeds where they can be killed readily by a proper application of recommended mercurial or chlorobenzene fungicides.

The mercurial seed treatment has the added advantage of preventing seed decay and seedling blight which may be a problem if there is a spell of wet, cool weather following seeding. On the other hand, chlorobenzene compounds are safer to apply, especially when treatment is done by the farmer himself.

There are a number of things, however, that chemical seed treatment does not do. It does not take the place of proper seed cleaning — both should be done. It does not take the place of a good crop rotation which is important where take-all and Cercosporella foot rot diseases are a problem. It does not prevent leaf rust which can only be controlled by growing resistant varieties, such as Kent. It does not control loose smut of wheat which can be avoided by sowing Registered seed and growing resistant varieties, such as Genesee wheat.

Hog Plan Pays Off In Returns

Systematic crossbreeding may be the answer for hog producers who are not satisfied with returns from their swine, says a federal agricultural expert.

Dr. G. W. Rahnefeld says that litter size, rate of gain and type in herds of low efficiency can be improved quickly by using good parental stock in a crossbreeding program.

More than one cross is necessary to make the programme successful, he points out. In the first cross, litter size is not improved although litter weight at 154 days is about 22 per cent greater than that of the parental stock.

Best Results

Most improvement results from the use of first cross females as sows. Litters from these are 12 per cent larger and weight 40 per cent more at 154 days than those of the original parental stock, Dr. Rahnefeld reports.

Although the crossbred pigs grow faster, they require nearly the same amount of feed per pound gain as purebreds.

The crossbreds tend to be intermediate between the types of the parental stock, making it important to use good breeding stock.

Ont. New Motor Vehicle Accident Claims Fund

Transport Minister H. L. Rowntree announced recently that full implementation of Ontario's new Motor Vehicle Accident Claims Fund takes effect October 1st. Victims of motor accidents with uninsured motorists will be able to collect up to $35,000 for death or personal injury arising from accidents which take place on or after this date. Protection against property damage is also increased to $5,000.

The Minister said the new limits would provide the greatest protection against the uninsured motorist in any jurisdiction on this continent.

Up to now, $10,000 was the limit of payment for death or personal injury of one person and $20,000 for death or injury to two or more persons, with a maximum of $2,000 for property damage.

Law enforcement officers will be checking more closely to ensure that all owners of motor vehicles are either insured or have paid the $20.00 uninsured fee to the Motor Vehicle Accident Claims Fund.

The new fund, which came into effect July 1st, provided for a more effective and speedy settlement of claims. The Minister reminded motorists of two new benefits included in the legislation that have been in effect since that date:

First, the inability of a claimant to locate an uninsured motorist will no longer deprive the claimant of his right of payment nor will the claimant be delayed in processing his claim because he cannot locate the uninsured motorist. Under the new regulations, claimants may have the writ served on the Registrar of Motor Vehicles as the agent for the uninsured person.

Secondly, a person having a claim against an uninsured motorist may apply directly to the Fund for payment of his claims without having to commence an action in court.

CONSERVATION NEWS

ESTABLISHING A HUNT CAMP

With the approach of the deer hunting season, the annual question arises as to where to establish a hunt camp.

Increased hunting pressure over the past few years has made it necessary to limit the number of land use permits in certain areas of the district that have reached the saturation point in hunter density.

Hunt camp land use permits may be issued at an annual rental of $20.00 per annum provided that the particular area is not subject to a heavy transient and day hunter population, or there is not already a heavy density of permanent camps.

Where the area is presently carrying an adequate hunt camp population, it would be necessary to secure the rights to a camp in the area which has reverted to the Crown or from a private owner wishing to sell.

All Crown lands are open to hunters in the district, regardless of whether they are members of a hunt camp group or the day hunters who often penetrate areas where L.U.P. hunt camps are located. Land use permits for hunt camps do not give any special hunting rights on Crown lands.

Blocks of Crown land cannot be leased or purchased for the express purpose of setting up a private hunting area. People wishing this type of set up must acquire their lands from private sources.

No hunt ramp land use permit will be issued on lakeshore frontage. Camps must be established at least four-hundred feet from the water's edge and one-hundred feet from the travelled road.

This enables the subdivision of lake frontage when feasible, and also protects the camp owner by providing some measure of isolation. Such camps are not so readily subject to vandalism.

If you are planning on establishing a hunt camp, it would be advisable to ascertain from the nearest field office the location of prospective areas. Then you can select a site, reporting same to the field office so that one of the staff may accompany you and prepare the prescribed location sketch. Once the sketch and field office recommendation is received at the district office, and if favourable, then authority is granted.

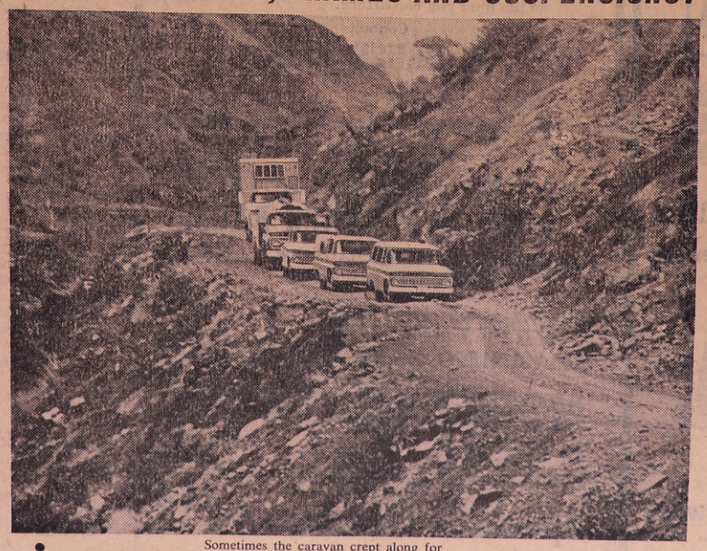
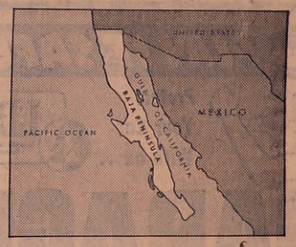
Tough new '63 Chevrolet Trucks

. . . THE ONES THAT WHIPPED THE BAJA RUN . . . TOUGHEST UNDER THE SUN . . . TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!



Sometimes the caravan crept along for hours in low gear. There was no traffic — just an occasional traveller on burro or horseback. It's that kind of route. It took 17 days to go 1,066 miles!



Nature created the world's toughest proving ground for trucks — the Baja (bah-hah) California Peninsula, Mexico. It's thousand miles of tortuous trail that defies travel.

Chevrolet tackled this route with a Carry-all, a ½-ton pickup with new 230 cu.-in. 6-cylinder engine, a ¾-ton pickup with new 292-cu.-in. *6-cylinder engine, a medium-duty unit with refrigerated van, a medium-duty diesel tanker and a heavy-duty tandem.

Rocks, ruts, washboard and washout racked the trucks from bumper to bumper. Sand, dust and rivers tried to swallow them. Hour after hour was spent in low gear at temperature up to 122 degrees F.

It took 17 days to go the 1,066 miles, and not one Chevrolet truck dropped out! Each day's run was finished on schedule!

Trucks that can take this kind of beating can take on your toughest truck jobs. See these tough, quality-built '63 Chevrolet trucks with all their new improvements at your Chevrolet dealer's. *Optional at extra cost.

When you came to a river, you got wet. This Baja river bottom was as rocky as the road. What a test for new '63 Chevrolet suspension systems!

Tight squeeze for the medium- and heavy-duty units in this gorge. Their new narrower front-ends certainly paid off. Users who operate in close quarters will like this new '63 feature.

Chevrolet's ladder-type frames withstood the severest punishment. Shown is the ¾-ton pickup with new 292-cu.-in. *6 cylinder engine.

Temperatures as high as 122 degrees F. burned the land in the desert area around Dry Lake — one more ordeal any truck that goes to Baja has to shrug off.

OF MANY THINGS

(By Ambrose Hills)

BRITAIN AND THE COMMON MARKET

Some Canadians seem intent on pushing Britain into the Common Market regardless of the terms of entry and the resulting short-term damage to Canadian agricultural interests.

Perhaps Britain should be a member. There are many good reasons for membership. However, it should be accomplished under the best possible terms, and this will not happen if it appears that Commonwealth members are pushing the British into it.

Europeans are tough, hard-headed bargainers. They want to protect their own agricultural and industrial communities to the hilt. If Canadians appear so eager for British entry that they will accept any restrictions willingly, then those restrictions will remain and Canada will suffer severely.

In many respects, such bargaining is like a poker game. Europeans play such a game with consummate skill. They have given every indication that they couldn't care less whether Britain comes in or not; but the fact is, they are keenly interested in having British membership. They are simply too smart to show it. Instead, they make the British leader work hard for membership.

They may be less demanding when it is made apparent to them that not everyone in Britain or in the Commonwealth is so eager for membership that old and cherished arrangements will be scrapped without complaint.

Prime Minister Diefenbaker is fully aware of Britain's strong desire to enter ECM, and he is not deliberately balking. He is, on the other hand, strengthening the voice of the British Prime Minister when he bargains in Brussels for better membership terms. And he is attempting to salvage for Canadian farmers and industrial workers something of the markets that have been traditionally theirs.

He has done a good job. He has done so well that those who are less imbued with the welfare of the people have attacked him bitterly and unfairly. He knew that such abuse would be his lot if he stood fast for Canada's welfare. The fact that he was willing to accept such abuse at a time in his political career when he needs praise very badly indicates his strength of character. He could have made a big fellow of himself in London quite easily — by sacrificing the interests of the Canadian people. He chose the hard way and, I think, the better way.

Water Safety Course Sponsored By Legion and Recreation Committee

Classes To Be Held At The Tops Motel, Belleville — Jr. Girls Started Saturday

A water safety course for local girls is being sponsored by the Royal Canadian Legion (Elwood Wilson, Sports Chairman) and the Stirling Recreational Council (Les Rawlings, Chairman) at the Tops Motel, Belleville. The junior girls had their first lesson on Saturday morning last and the senior girls will open their course on Saturday next.

Instruction is being provided by Miss Barbara Morrow, holder of bronze medallion of the Life Saving Society; Miss Gail Morrow and Miss Susan Webber, holder of senior certificates of Canadian Red Cross; Miss Judy Cooney and Miss Linda Anne Morrow.

Training aids and statistics were furnished by the Canadian Red Cross, courtesy of Mr. C. R. Blackstock, National Director for Water Safety, Canadian Red Cross.

Transportation is being provided by R. Geen, local taxi operator, and insurance coverage by Stirling Legion and Tops Motel.

The pool is owned and operated by the Tops Motel, Belleville, Mr. C. Winer, manager, who very kindly reserved Saturday morning for Stirling.

Measuring 35x75 feet the pool which cost in excess of $100,000 is maintained at a constant temperature of 72 degs. F. and the surrounding air at 78 degs. F. The water is under continuous circulation and filtration with a 2½ ft. shallow end divided by a one inch nylon rope with floats.

The purpose of this course is to teach water safety through training and qualifying tests and to provide a useful activity for girls.

Mr. Blackstock provided statistics on drownings in Ontario which show that the month of July is the heaviest and that the age group of 16 to 25 suffer the highest percentage of casualties. Swimming (not beginners or non swimmers) accounts for the greater number with power boats a close second. In 1957 drownings in Ontario amounted to over 500.

Classes were arranged by Mr. Marvyn Scott and his staff, Stirling Public School, and consisted of two groups, 12 in each from Grades 4, 5 and 6. The class periods of 45 minutes are divided into 30 minutes instruction and demonstration and 15 minutes of free swimming and practice.

The youngsters were assessed as to present abilities and future help needed towards qualifying tests. These results are available to the parents. If there is health consideration parents should make it known in advance. It is hoped that in a month's time parents will come down Saturday morning and watch the class.

Those in attendance on Saturday morning were: Patsy Cameron, Chris Ray, Susan Tucker, Connie Donohoe, Judy Merrill, Linda Faulkner, Janet Duffin, Betty McCrory, Linda Jackson, Kathy Morton, Roelie Oosting, Dianne Wilson, Connie Tucker, Ardeth Wilson, Ann Morton, Gail Armstrong, Ann Glendinning, Karen Johnson, Beth Bastedo, Debbie Arbuckle, Denise Meeks and Susan Rose.

Vandals Active

Vandals were at work in the Village on Friday night last when some fifteen stop signs on Village streets were bent over or twisted out of their moorings. A barricade was also placed across James St. at Mill and a rope strung across the road at car level on John St. near E. A. Luery's residence. The latter caused considerable property damage when a car driven by Gerald Bush crashed into it early Saturday morning resulting in a broken aerial and windshield.

Boy Scout and Cub Activities

On Tuesday evening, October 2nd the Boy Scouts canvassed the town selling peanuts for the local group committee. This proved a very successful venture with the net proceeds amounting to approximately $115.00. This will meet the quota to Provincial Heaquarters for the year.

Last Saturday was "Apple Day" and the Cubs were out Friday evening and Saturday selling apples, the proceeds amounting to some $75.00. The results were much better than last year. The Cubs have also been selling Christmas cards. This is once a year that the boys get out to call on the people of town for financial help to put the group through the year. The Scouts and their leaders are very pleased and very thankful for this help.

The Scouts on Saturday picked up waste paper and made about $42.00, but there is still a lot of paper going out to the dump. Why not save it as the boys will be picking it up every month. This sale of waste paper takes care of the Troop expenses.

Last Tuesday evening Rev. P. J. Hommersen paid a visit to the troop and presented Bill West and Don Stewart with the Life and Religion award.

Work on Bridge Proceeding

After several weeks delay, the steel for the Front St. bridge arrived last Thursday and the six large girders were in place by Wednesday night. Selections were read by Mrs. Raymond McConnell and Lindsay McKeown. Miss Linda Potts gave a piano solo. Mrs. Carleton Potts and the minister conducted the sing-song of old favourites.

Misses Brenda Campbell and Brenda Williams sang a duet with Miss Barbara Williams as accompanist. Mrs. Mac Sharp and Miss Nancy Johnson contributed a piano duet. Mrs. Percy MacMullen recited Mr. Barrymore's lecture on "Wives."

A pleasant time was enjoyed when some fifty neighbours and friends gathered at Eggleton School on Saturday night to honour Mr. and Mrs. Elmer Prest who were recently married.

Announcement of a gun training school to be held on Thursday of this week and Tuesday of next week at the home of S. Towes, Glen Ross, was made by President Austin. He also reminded the Club members that trespassing on a railroad was illegal during day or night.

In a brief open discussion period complaints were heard from members of some unknown parties breaking bottles and otherwise damaging club property. President Austin emphasized that it was the duty of individual members to check on the membership of anyone carrying on in such a manner and prompt action would be taken. Suggestions were also received for suitable prizes for the next monthly meeting.

Wildlife films, courtesy of the Carling Conservation, were shown by Geo. Warner to conclude a splendid meeting.

Stirling Branch Royal Canadian Legion To Initiate 25 Members

Next Tuesday, October 16th, Stirling Branch of the Legion will initiate up to 25 new members. This promises to be an outstanding meeting and all members are urged to be on hand. The meeting will start at 8.15 p.m. All members are asked to wear berets. Tweed Branch of the Royal Canadian Legion will conduct the initiation ceremony.

All branches of the Zone have been invited to the initiation next Tuesday. We also expect the Zone Commander, Dr. D. C. McVicker, to be on hand. Immediately following the meeting, the branch will hold an old-style smoker under the chairmanship of Comrade Fred Houchin.

The next six weeks are very busy ones for the local branch. A branch bulletin is being mailed to all members in which is outlined the forthcoming programme. We urge members to read their bulletin carefully and to give their full support to the activities scheduled for the next six weeks.

Plans are almost completed for the observance of Remembrance Day. This year it has been necessary to make a few changes in our program for the day. Through the co-operation of local churches, the starting time of morning worship services has been set back to 11.15 a.m. The Service of Remembrance at the Cenotaph will commence promptly at 10.40 a.m. The public is asked to take special note of the change in time.

The service will be shortened in order that everyone will be able to attend their church services at 11.15 a.m. Due to the brevity of the Remembrance Service there will be no printed order of service at the Cenotaph this year. The Legion will publish a brief outline of the proposed service in the News-Argus.

The Legion will proceed to St. Andrew's Presbyterian Church immediately after the Remembrance Service for morning worship. In the past, the Legion has always conducted a memorial service at the Rawdon Township Cenotaph. There will be a service again this year. Plans call for the Legion to proceed directly to Harold immediately following the morning church service. It is expected that the service at Harold will commence at about 12.45 p.m.

Wreath and poppy sales are planned to commence shortly. The public is asked to give their generous support to this annual appeal. Very often it is not possible to tell the general public of the many instances where the poppy fund has been used to render much-needed assistance.

The money which is donated to the Legion's Poppy Campaign brings the necessities of life to thousands of Canadian veterans and dependents. But it cannot heal the bodies broken in the service of their country. We can do so little for these men who did so much for us. However, we can express our gratitude by giving generously to the Legion Poppy Fund.

Home remedies — For burns, slice of lemon, vanilla, cold tea, grated potato, soda, butter; for inflammation, bathe with hot water and epsom salts, vinegar or ordinary table salt.

Again is was decided to canvas for used clothing and have appeal inserted under crest in the local paper. Materials were handed in to make children's apparel for bale.

A card was signed by the ladies to send to Mrs. R. Williams, who is a patient in Belleville Hospital. Mrs. Williams has been, over the years, a faithful Institute worker and all are sorry to hear of her illness. A card shower will follow.

The hostess donated special penny boxes and these were gathered along with the collection by Mrs. A. Wannamaker.

The President announced the next meeting in November will be at the home of Mrs. W. H. Cooke. This will be a night meeting. Roll call will be "Qualities of a good homemaker." The topic, "Home Economics," will be given by Mrs. R. Rupert. The demonstration and contest committee convener will be Mrs. M. Ward.

The President reported attending the Auxiliary meeting at the Hastings County Home and that a bazaar and tea will be held there with each W.I. Branch contributing in whatever way they desired. Our humble, thankful hearts."

Hastings County Plowmen Hold Plowing Match

The first County Plowing Match to be held in Hastings County since the early thirties was held on the farm of Mr. Ed Sexsmith, Madoc, on Wednesday, September 26th, under the direction of the County Plowmen's Association. The Match proved most successful with sixteen Hastings County plowmen competing.

Taking some of the top honours was Robert Hamilton, Trenton R.R. 5, and taking many of the other awards was David Foley, of Madoc. The day was ideal for plowing, the land in most cases was satisfactory and the Madoc Junior Farmers with their food booth kept all hungry appetites satisfied.

It would appear from the success of this Match that County Plowing Matches are something that the people of Hastings can look forward to for many years to come.

Winners in the various classes were:

Class 1 — open — Gordon Bradfield, Peterborough R.R. 10.

Class 3 — 18 to 21 years — Robert Hamilton, Trenton R.R. 5, and Larry Bertrand, Marmora R.R. 1.

Class 4 — 16 to 17 years — David Foley, Madoc R.R. 1; Wayne Tummon, Corbyville R.R. 1; Donald Bailey, Cooper; John Wilkes, Marmora R.R. 1; Ross Carlisle, Stirling R.R. 3; Fred Phillips, Belleville R.R. 2; David Flynn, Marmora R.R. 1; John VanVolkenburg, Marmora R.R. 1; and Irwin Post, Thomasburg.

Class 5 — 12 to 15 years — Donald Mumby, Harold R.R. 1; Harold Bailey, Cooper; Jack Howard, Madoc R.R. 3; John Morgan, Halloway R.R. 2; and Ronald Broadworth, Madoc.

Class 6 — Utility Class — No handling — Robert Hamilton, David Foley, Donald Mumby, Wayne Tummon, Donald Bailey, Jack Howard, Larry Bertrand, Ross Carlisle, John VanVolkenburg, Irwin Post and John Morgan.

The Best Three-Furrowed Plowed Land — Wayne Tummon

The interest which the public have in the Match was obvious by the large number of people in attendance, and also by the number of farm demonstrations which various machinery companies had at the match.

The Hastings County Plowmen's Association is very indebted to the following who gave material and cash donations: MacKenzie Feed Stores, Belleville and Stirling; LeSage Bros., Tweed; Bishop Seeds Ltd., Belleville; Truck and Farm Supply, Belleville; Alton Hadley, Massey-Ferguson, of Belleville; McKeown Bros. Mrs. Percy Reid Hostess To Rylstone W.I.

Mrs. Percy Reid was hostess to the Women's Institute on Tuesday afternoon, October 2nd at Zion United Church Sunday School Room, a day later than usual on account of Madoc Fair being held on the regualr date.

Mrs. Stanley Kerr, President, was in charge of the opening exercises, including the Institute Ode and Creed and roll call answered by "What I like to do best around the house." The minutes were read by the Secretary, Mrs. Don Stewart.

Arrangements were made for a short course on "The Third Meal." Correspondence was read and discussed.

Mrs. Ernest Irwin was convenor for the balance of the programme and introduced Mrs. Carl Clancy, of Wellman's Corners, who gave a very interesting and informative review on "143 Pounds of Meat." Mrs. Jack Watson voiced the thanks of the members to Mrs. Clancy and presented her with fine china cup and saucer.

Mrs. Jim Milne gave a humorous reading entitled, "Is This Progress." Mrs. Alfred Barnum gave the current events and Mrs. Gerald Petherick conducted a "Bird" contest." The meeting closed with the Lord's Prayer.

Refreshments were served by the hostess, assisted by Mesdames Don Stewart, Alfred and Gerald Barnum.

The next meeting will be held in the evening when a speaker from Belleville will show slides and give a talk on cancer. All ladies welcome.

Be Careful When Burning Leaves

The Ontario Safety League warns homeowners that piling up fallen leaves on the side of the street or burning them in back yards can both be dangerous. The first, because leaf piles tempt children to play in them and become concealed targets for passing cars. The second, because sparks from leaf fires can easily travel in the wind and set fire to nearby garages and houses.

The best way to get rid of leaves, the League suggests, is the way you dispose of other garden refuse. Place them in containers for pick-up by garbage collectors, and you eliminate both the traffic and the fire problem.

The first law courts opened in the New World were established at Trinity, Newfoundland, by Sir Richard Whitbourne in 1615.

Till you see her vacant chair.

Consumer Section — Marketing Service
CANADA DEPARTMENT OF AGRICULTURE

LAMB'S THE BUY

Most people think of lamb as a seasonal meat with the best quality available in the spring. This is not true, says the Consumer Section, Canada Department of Agriculture. Good Canadian fresh lamb born in the spring is now in plentiful supply and is attractively priced in relation to other meats this fall. At this time of year the animals are more mature and the meat has its best flavour. Incidently lamb is classed as "lamb" until 14 months of age.

There are two schools of thought about lamb. There are those that regard it as "special occasion meat" or a meat "good for a change", then there are those to whom lamb is associated with cheap meals, redolent of hard times or wartime. Few people ever stop to look to look at the medium-priced cuts. In fact, to many people, lamb means either lamb chops or stew meat. It is probably safe to say that there are many of the younger generation who have never eaten lamb at all.

Lamb is actually a very tender, tasty meat and has a pleasing, distinctive flavour. It adds variety as well as satisfying qualities to any meal.

Lamb is not generally sold by grade to consumers except in some cities in the province of Saskatchewan. The round, brown stamp you will see on the large cuts is the Canada Approved Stamp which indicates that the meat has been health inspected and is wholesome and good to eat.

CHECK YOUR LAMB I. Q.!

Next time you go shopping for meat check the good buys in lamb. The home economists of the Consumer Section, Canada Department of Agriculture have a few tips on what cuts to buy and how to cook them.

Leg of Lamb

Watch for specials on this! It is a delicious, tender oven roast usually sold in 6 to 8 pound cuts or half legs of 3 to 4 pounds each. A whole leg of lamb takes 25 to 30 minutes per pound to roast in a 325 deg. F. oven to the well done stage

Loin Roast

May be sold as a roast or partially cut so that you can take off loin or rib chops. A 2 to 3 pound loin roast will take about 50 minutes per pound to roast in a 325 deg. F. oven.

Chops

Rib or loin chops are the most popular lamb chops. Loin chops are more expensive - they have less bone and are meatier than the rib chops. Shoulder chops are usually a few cents less per pound than either loin or rib chops. They are not quite as tender but are larger, quite meaty and flavorful. All chops may be panfried, broiled or browned and baked in a 325 deg. F. oven.

Shoulder Roast

This has a fair amount of bone though sometimes the blade bone is removed and a pocket is left for stuffing. On request, you may have this boned and rolled. You can roast shoulder cuts in a 325 deg. F. oven — about 35 to 40 minutes a pound.

Lamb-in-the-Basket

This is a way of packaging fronts of lamb - either the whole front or part of it. The package is much lower priced than other cuts because the lamb is untrimmed. You may get three different dinners from lamb-in-the-basket: (1) Shoulder roast for oven roasting; (2) Shoulder chops for panfrying, boiling or baking; (3) Stewing meat for lamb stew, curried lamb or barbecued lamb.

Flank, Breast and Shank

These are all good cuts for stewing. They make good barbecued lamb when simmered slowly in a barbecue sauce.

Questions of Interest To Home Owners

Mr. and Mrs. Homeowner:

Your home is your most priceless possession. Don't risk heartaches and top-heavy costs in keeping it up-to-date.

Whenever it needs care, maintenance or modernization, check before you sign any contract from a high pressure, quick talking stranger.

Ask yourself these questions when you have been contacted by an itinerant salesman offering you a "bargain price" on a new roof, siding, paint job or other home improvements:

1. Do I know anything about this salesman or his company?
2. Can the salesman or his company give me local, recent references?
3. Will the company be in existence and financially able to fulfill its guarantee (if any) in one, three or five years from now?
4. Have I obtained a price on this job covering the exact same specifications from any local dealer?
5. Does the out-of-town company have liability insurance to protect me or my property in case of accident?
6. Do I know for certain the brand and grade or quality of material I will get?
7. If something goes wrong with the job, will the company make it good and if so, when,
8. If a local building permit is needed, does the out-of-town firm have one, signed by local authorities for my protection?
9. Can the salesman give you, as a reference, some of his local customers?
10. In any event, isn't it better, safer and more loyal to do business with fellow townsmen and neighbours than with strangers?

If the answers to any of these questions are not satisfactory, be careful. Watch out for tricky contracts and misrepresentations.

Before you purchase material or enter into a contract with an unknown firm consult one or more of your local lumber dealers. They are reliable, trustworthy and an authority on the proper materials and what they should cost for your very building requirement. They know what material will give you the best job per dollar invested.

They are members of your community. If anything on any job might need further attention you are as close to them as your telephone and you can be assured of satisfaction and helpful, friendly service.

Crawford -- Johnson Nuptials At St. Paul's

The altar of St. Paul's United Church, Stirling, was decorated with pink gladioli and asters, and the guest pews with satin bows for the wedding of Margaret Jean, daughter of Mr. Harold Johnson and the late Mrs. Johnson, and George Allan Crawford, son of Mr. and Mrs. John Crawford, of Madoc, which took place on Saturday, September 8th, with Rev. P. J. Hommersen, officiating. The organist was Mrs. H. Brown and the soloists were Mr. and Mrs. Grant Richardson.

Ralph Johnson gave his sister in marriage, and she wore a gown of chantilly lace and net over taffeta which featured a bouffant skirt with tiny waist. The chantilly lace bodice featured a manderic neckline, and sleeves were lily point. She carried a white Bible with red garnets surrounding a white orchid. A sequin coronet held her two-tier nylon tulle veil.

Mary Johnson, the twin sister of the bride was maid of honour. Miss Vonnetta Valyear, a cousin, was bridesmaid. They wore matching turquoise nylon organza dresses and matching shoes. Rose whimsies were their headdress and they carried baskets of white gladiolus.

The groomsman was Calvin McCoy, of Eldorado. The ushers were Charles Crawford and Max Valyear.

For the reception in the church parlour, Mrs. Johnson wore a dress and duster of beige floral nylon of nylon organza over taffeta and corsage of talisman roses.

The mother of the groom wore a navy blue lace dress with corsage of pink roses.

For the wedding trip to Niagara Falls and Muskoka the bride chose a deep peacock blue dress and duster with contrasting accessories and a pearl necklase and earrings, the gift of the groom.

The couple will reside in Bancroft.

Among the out-of-town guests at tending the wedding were Mr. and Mrs. Carleton Phillips, of Bala; Mr. and Mrs. Ronald Johnson, Chatham, New Brunswick; Mr. and Mrs. Wesley Johnson, Birks Falls; Mr. and Mrs. Gerald Morrison, Eldorado; Miss Mary Johnson, Belleville, and Mrs. Stanley Williams, Barbara and Bonnie, of Mount Pleasant.

Prior to her marriage Margaret was honoured by a miscellaneous kitchen shower at the home of Mrs. Delbert Sine, Front St., Stirling, with Miss Gail Sine and Miss Arla Woodcock as co-hostesses, and at the home of Mrs. Margaret Valyear and her daughter, Bonnie, of Belleville, when they were hostesses to her co-workers and friends from Northern Electric at a kitchen shower.

The Trans-Canada Highway opened September 3rd, length of 4,875 miles from St. John's Newfoundland, to Victoria, B.C. The cost is estimated at more than one billion dollars or about $48.00 for every person in Canada. There are more than 500 bridges along this highway route.

A $2,500,000 grant has been given to Laurentian University in Sudbury by the International Nickel Company of Canada Limited. This grant is believed to be the largest corporate donation ever made to a Canadian university.

Montreal has received word that they will be eligible to hold the World's Fair in 1967, but New York is planning the World's Fair May 1st in 1964.

Mrs. P. Bronson gave a reading on "Thanksgiving." In part she said, sometimes we think if the churches in our midst did nothing else but remind us to be thankful, they would be fulfilling a great purpose. For to be grateful is a virtue. We know of no other virtue which does more to transform the nature of a person for good, than that of being "humbly" thankful. We can be thankful in the evening for the day and its work, the night and its rest, the tomorrow with its hope.

Health convenor, Mrs. F. Smith, gave an outstanding report, touching on numerous diseases, smallpox vaccination, polio, fluoride and tooth decay, appendicitis, allergies and the new method of artificial respiration.

She closed with these wise instructions when visiting a sick room: (1) Don't rush into a sick room; (2) Don't be gloomy; (3) Don't be curious as to the sickness; (4) Don't make the patient dissatisfied with the care received; (5) Don't offer your medical advice or opinion; (6) Never in any phase of life make promises you cannot fill; (7) Don't lie. Don't tell a sick man he looks marvelous, nor should you tell a seriously ill person they look half dead; (8) Be honest, cheerful, leaving your visit a pleasant memory where every you go.

The singing of the Queen closed the meeting.

A most delicious lunch was served and all enjoyed the usual social chat.

Mrs. E. Foster was happy to express appreciation for the afternoon's programme to the hostess for opening her home and the programme and lunch committee, Mrs. F. Smith and Mrs. A. Wannamaker.

If a man doesn't get happier as he gets older, he hasn't learned what he should along the way.

NEWS FOR THE BUSY FARMER

Furrow and Fallow By Fairbairn

Ontario will be the next province in Canada to appoint a full time director for ARDA when H. F. "Herb" Crown assumes those duties October 15th. Agriculture Minister Stewart announced at a testimonial dinner for retiring Haldimand County Agricultural Representative, Gord Skinner, last week that his department was establishing an Agricultural Rehabilitation and Development Branch with Herb Crown as director. The ODA recently assumed full responsibility for the ARDA program in the province after representations from the Federation of Agriculture.

Mr. Crown appears to be a "natural" for this job. First, he is a graduate of the O.A.C. and second, he has had wide experience in the conservation field, both with the river valley authorities in Ontario and with the Department of Lands and Forests. He was also secretary of the Select Committee on Conservation.

Mr. Stewart said the ARDA will be responsible for co-ordinating and promoting a programme leading to the best utilization of the province's natural resources under the provisions of the federal ARDA programme. The programme will naturally vary considerably from area to area but the ODA will work closely with local organizations to develop the best type of programme for their particular district. Generally, individual ARDA programmes might include such things as the development of alternate land use (other than farm), reforestation, drainage, establishment of community pastures and so on. "The broad concept of ARDA can be an extremely effective instrument for good in rural Ontario," Mr. Stewart concluded.

Another development just announced is a Quality Meat Sire Policy for Ontario beef producers. This policy which starts immediately, is designed to identify sires capable of producing top quality offspring — that means, percentage of lean meat, relationship of fat to lean, and marbling. The ideal carcass prossesses a high percentage of well marbled, lean meat and has an even covering of fat.

Scientific tests have shown that there is a direct correlation between the area of lean meat in the ribeye and the total amount of lean meat in the carcass. A test has been devised to measure meatiness by the area of the ribeye. In a really meaty carcass there should be at least two square inches of ribeye for every hundred pounds of carcass weight when the cross section cut is made between the twelfth and thirteenth ribs. So a 500-pound carcass should have at least 10 square inches of ribeye.

Fat covering is obtained by measuring at three points over the ribeye and averaging the three. In a choice 500-pound carcass the fat thickness should not exceed two-thirds of an inch.

Also important in beef production is weight for age — the fastest growing animal makes the most economical gains. So rate of gain is considered in this quality meat sire programme.

Agriculture Minister Stewart says, "This policy complements performance testing policies already in operation, and will be administered by the Advanced Registry Board."

Continuing the trend toward greater emphasis on Marketing within the department, R. E. "Dick" Goodin has been appointed Markets Development Officer for Special Crops.

In making the announcement, Mr. Stewart said that tremendous progress has been made through the years in the efficient production of farm crops but, be added, "We have now reached the stage when more concentrated attention to marketing development is essential."

Dick Goodin has had long experience in field crop work and the marketing of agricultural products, especially turnips and potatoes, and he will expand this type of work.

Timely Tips

You should cull out unprofitable sows immediately after the pigs are weaned, advise swine researchers with the Ontario Department of Agriculture. The sows which have just weaned small litters of poor pigs can be picked out at this time. Keep good mothers only.

The first step in preparing ewes for breeding is to cull the flock thoroughly. This means disposing of ewes that are bad-uddered, broken-mouthed, poor mothers, non-breeders, and any animal showing undesirable characteristics. Ewe lambs should not be bred unless well grown, weighing at least 110 pounds at breeding time, say sheep specialists with the Ontario Department of Agriculture.

Meat packers are noticing a larger proportion of condemned livers in swine as a result of roundworms. The problem is controllable; hygenic and treatment measures are effective, says Dr. Howard Neely, extension veterinarian at the Ontario Veterinary College.

Checking your corn crop now for any mistakes could up both yields and profit next year, says Stan Young, crops specialist at the Ontario Agricultural College. Noting mistakes now, when you can see them in the field, is a big help next spring.

Stirling Juniors Defeat Marmora

(by Lois Morton)

The High School Junior Football team won their second consecutive game Wednesday evening with a 14-12 decision over Marmora.

Stirling defeated Marmora (supposedly the best team in the league) on solely "team effort." Ken Smith, the star of the locals, tallied the first touchdown and John Noble converted for the seventh point early in the first quarter.

Midway through the second quarter Marmora's Larry Griffin scored a touchdown. Marmora scored again, giving them a five point lead going into the second half.

Late in the third quarter Smith again carried the ball into the end zone for a touchdown. Noble again kicking made a successful convert.

The fourth quarter was outstanding. The boys showed their playing ability by holding back their opposition successfully. Each player stood out in this fine team effort.

This victory put Stirling on the top of the league with a 2-0 record.

SENIORS FALL TO THIRD STRAIGHT DEFEAT

What to do with the senior football team must be coach Mr. Hemmerick's biggest worry. They dropped their third consecutive game in Tweed on Thursday night, 19-0.

The biggest problem seems to lie in getting someone to carry the ball and score touchdowns. In these past three games, Stirling has scored but one touchdown, which isn't good for percentages.

Our boys seem to try very hard, and they deserve a mark of merit for it, but opposition is tough this year and many of their boys are bigger than ours.

Good luck in the next game, Seniors! Bring our High School back a victory.

THE BIBLE TODAY

Dr. Oge Holter, of Oslo, Norway, visited London, Ontario, recently on a YMCA visit. As translation secretary of the Norwegian Bible Society, he met with a group of interested Londoners for lunch.

Founded in 1816, the Norwegian Bible Society is an agent of the Norwegian Lutheran Church, Dr. Holter explained. The Society is the sole publisher of Norwegian Scriptures.

Following affiliation with the United Bible Societies in 1946, the Norwegian Society began to take an active interest in Bible affairs in other countries. It now contributes to translation work in Tanganyika, for the Santali Bible, in India for Indonesian Scriptures. Besides this, the Society does work in Madasgascar, Uruguay and Paraguay.

Dr. Holter explained that all schools in Norway hold Bible reading sessions. A Youth Translation of the New Testament was completed in 1959, in order to make it better understood by those of the school ages. "The Society has organized many Bible reading and study groups," Dr. Holter said.

10,000 Attend Madoc Fair

More than 10,000 persons are estimated to have attended the Madoc Fall Fair, drawn by the mellow sunshine and exhibits, horse races and a king-size midway.

At Auxiliary Meeting At County Home

Stirling ladies of the Women's Institute attended a Women's Auxiliary meeting at the Hastings County Home on Wednesday afternoon along with approximately one hundred ladies.

Mrs. Clarence Holmes, President of this society, welcomed all and was so pleased with the large attendance.

A birthday party is held each month for the inmates and at this meeting eighteen were celebrating their anniversaries.

A guest speaker, Mrs. R. Smtih, of Toronto, was introduced by Mrs. K. Yorke, Mistress of the home.

Mrs. Smith spoke on the urgent needs of assistance from Auxiliaries and Women's Institutes in bringing "just a little" comfort to these senior citizens, who in their health and opportunity had done much to make our country better.

Old time songs were enjoyed in community singing. Those having birthdays were seated with each having his or her birthday cake with a lighted candle. A tasty lunch was served to all, with Mrs. B. Reid, President of the Stirling Branch, along with the guest speaker, pouring tea.

Those having birthdays were called on for a speech. One lady of 99 years, in a frail voice, sang "Jesus Loves Me."

The President announced that a bazaar and tea would be held later this month at the County Home, asking each society to contribute.

Following the meeting visits were made with friends in the Home. They were sorry to report that Mr. David Cotten was a patient in the Belleville General Hospital.

The ladies of Stirling W.I. are looking forward to the next gathering at the Auxiliary tea.

Post -- Hayes Nuptials at St. Paul's United Church

A pretty fall wedding was solemnized at St. Paul's United Church on Saturday, September 22nd, at 2 p.m., when Sandra Elizabeth Hayes, daughter of Mr. and Mrs. Ross Lain, Stirling, became the bride of Mr. Ross Sheldon Post, son of Mr. Alger James Post and the late Mrs. Post, Ivanhoe. Rev. P. J. Hommersen officiated and the church was decorated with gladioli and fall flowers.

The traditional wedding music was played by Mrs. Harry Brown and the soloist, Miss Edith De Jong, rendered "I'll Walk Beside You" and the "Wedding Prayer."

Given in marriage by Mr. Ross Lain, the bride looked charming in a waltz-length gown of bordered French lace over taffeta, with lily-point sleeves. Her fingertip veil fell from a tiara of seed pearls and she carried a bouquet of sweetheart roses.

The bride was attended by Mrs. Harold Bunnett, Belleville, as matron of honour, and her sister, Miss Linda Lain, as bridesmaid. They were similarly attired in gowns of Hawaiian blue chiffon, with matching accessories, and carried nosegays of tinted 'mums.

Mr. Albert Post, a brother of the groom, was best man and Messrs. James and Gregory Haggerty were the ushers.

At the reception held in the church parlours, the bride's mother received the guests in a double knit teal blue suit, with white accessories and a corsage of white 'mums. She was assisted by Mrs. Blake Sharp, of Stirling, aunt of the groom, who wore a navy dress with navy accessories and a corsage of pink 'mums.

For a trip to Watertown, N.Y., the bride chose a black and white check dress, with matching coat and mauve accessories. Her corsage was of white 'mums.

Out-of-town guests were present from Kingston, Peterborough, Belleville, Norwood, Ivanhoe, Odessa, Madoc and Campbellford.

Mr. and Mrs. Post will reside at R.R. 2, Halloway, Ont.

Quiet and unassuming, he was a good neighbour and friend and well known and highly respected throughout the community.

Members of St. Paul's AOTS Club Conduct Services at Cardiff-Paudash

Sunday morning, October 14th, twenty-six members of St. Paul's United Church AOTS Men's Club journeyed to Cardiff-Paudash Lake Pastoral Charge and conducted the morning worship services at these two churches.

Upon their arrival at Cardiff the members were greeted by Rev. and Mrs. Paul Packman, minister of the Charge and were served hot coffee by the ladies.

The worship service was conducted by Wendell Camm, President of St. Paul's AOTS Club. The Scripture Lesson, taken from St. Mark 9: 38-50, was read by Robert Hulin and the Responsive Reading, Psalm 145, by Robert Hatton. Prayer was offered by Harry Brown.

St. Paul's Men's Choir, with Mrs. Harry Brown as organist, rendered as an anthem the hymn "More Love To Thee."

Don Williams, who recently served as a Commissioner to the United Church General Council at its meetings in London, Ont., gave an inspiring address. The speaker compared a Christian to a well-disciplined athlete starting a race under the headings of "On Your Mark," "Get Set" and "Go."

Christians whether they like it or not are judged by what they do and say. Others have passed Christianity on to us and we must in our turn pass it on to others.

Mr. Williams went on to point out that we can't be spectators and be Christians. We need training to be a good Christian and this can be obtained by (1) Study of the Bible, (2) prayer by individuals, (3) fellowship in church worship. A Christian needs the fellowship of the Church. AOTS members try to follow the idea that they do something to deepen the Christian fellowship.

The speaker concluded by saying that an athlete has to give a little extra push to win the race and that dedicated laymen and women must be ready to give a superior performance. Christians should be ready to stand up and be counted.

Following the worship service at Paudash Church the ladies of the congregation served lunch.

Several wives accompanied the members. All enjoyed the scenic beauty this time of year of the countryside.

Those attending were Mr. and Mrs. Jack Bush, Mr. and Mrs. Ed Heasman and Maria, Mr. and Mrs. Fred Bateman, Mr. and Mrs. John L. Good, Mr. and Mrs. Harry Philp, Mr. and Mrs. Bob Patterson, Mr. and Mrs. Harold Bird, Mr. and Mrs. Clare West, Mr. and Mrs. Grant Potter, Mr. and Mrs. Elwood Bateman, Mr. and Mrs. Allan Wells, Mr. and Mrs. Harry Brown, Messrs. Joe Irish, Maurice Bell, Russell Rupert, Max Maguire, Ernie Munro, Angus Johnston, Elvin Carr, Carl Potter, Don Williams, Robert Hatton, Wendel Camm and Robert Hulin.

Stirling Seniors Win Over Madoc

(by Lois Morton)

The tables turned last week when the High School junior football team lost their first game of the schedule and the Stirling seniors won their first game.

The junior's game was held at the Fair Grounds and they dropped to Tweed 12-0. They played far below par, but now with that one bad game over with, perhaps they can come up with victories in their remaining games.

The seniors, after losing three straight games, came up with their first victory, and a well deserved one at that. They started off early tackling an opponent in his end zone for a lone mark. A few minutes later Peter Bosiak ran for a touchdown giving them a seven point margin. This seemed to be the chance our boys had been waiting for and before the quarter ended Albert Lawes got another touchdown for the locals.

Now, with more touchdowns than they had scored in the past three games put together, Robert Vandervoort made a beautiful run for another touchdown.

In the third quarter Stirling twice caught Madoc in their end zone to get two points and they fought to hold on to their lead.

The opposition had one great chance in the fourth quarter to score a touchdown, but thanks to Andy Faulkner they were foiled and fumbled the ball. The whole team played a marvelous game and congratulations on that 21-0 win.

Congratulations!

Congratulations seniors!
On your decisive win.
Just keep it up in future,
Don't let defeat creep in.

VOLLEYBALL

Stirling were unsuccessful October 11th when the senior squad dropped their game with Marmora 50-19. The juniors also fell to a 30-28 defeat.

Mt. Pleasant United C. Women

The thanksgiving meeting of Mount Pleasant Rawdon United Church Women was held on October 11th at the Church Hall with twenty members in attendance and two pre-school children.

The worship centre was based on the theme "O Give Thanks Unto the Lord," with bouquets of yellow autumn flowers.

Mrs. Milford Wrightman presided with a call to worship, a hymn, "Thankful People" and prayer. Mrs. Garth Joslin was pianist. Reports were given by Mrs. Ross Jeffs and Mrs. Kenneth Weaver, Mrs. Robert H. Hoard read invitations from St. John's Stirling, St. Andrew's Stirling and Tabernacle English Line, for future visits.

Mrs. Harry McAdam read a paper on stewardship. Mrs. Burton Sharpe outlined plans for the tea and bazaar.

Mrs. Percy MacMullen presided over the programme and read a poem. The devotional based on Thanksgiving was taken from the booklet "Beginning Again." Mrs. Stanley Williams read the Bible Lesson and Mrs. Robert Hoard the meditation. Mrs. Marguerite McMullen contributed a vocal solo and Mrs. Norman McConnell gathered the offering.

Mrs. MacMullen synopsized chapter VI entitled "Old and New Canadians." She gave the immigration picture in Canada and read several articles which had been written by those who compiled the study book; also clippings from newspapers.

Mrs. Herbert Smith, co-convener of the programme, graphically told the story "Chrysanthemum Transplanted" as written by Jessie L. Beattie in "Hasten the Day." This was a sad story of the days of World War II when the Japanese population of British Columbia were uprooted and moved elsewhere.

The meeting closed with the devotional prayer. The refreshment committee, Mrs. Garth Joslin and Mrs. Norman McConnell served a variety of tarts with tea and all enjoyed a short fellowship together.

St. Mark's W.A. Bonarlaw

The monthly meeting of St. Mark's W.A. wa sheld at the home of Mrs. Jack Fraser on Thursday afternoon, October 11th.

The meeting opened by the singing of the hymn, "O Master Let Me Walk with Thee," followed by prayer taken by the President, Mrs. W. J. Barlow. The Bible reading was read by Mrs. Everett Heath.

The President welcomed all present and thanked Mrs. Fraser for the use of her home. Roll call was answered by each member giving a verse from the Bible containing the word "Joy." Minutes of the last meeting were read and approved. Treasurer Mrs. W. Neal gave her report.

Correspondence was read including the Board letter, an invitation from Stanwood to attend a tea in October, and invitations from St. John's, Stirling, to attend their 60th W.A. anniversary on October 30th and their bazaar in November. Mrs. Barlow also announced that the members were invited to Marmora on October 29th to see the slides in conjunction with the new study book.

Much discussion was held regarding the furnace and remodeling the kitchen in the basement of the Church and a committee was formed to attend this matter.

It was decided to hold the annual bazaar and turkey supper the latter part of November.

The meeting was closed with prayer by the President and the hostess served a lovely lunch.

St. Paul's U.C.W. Group Six

Mrs. Harold West was hostess to the ladies of Unit Six of the United Church Women of St. Paul's for their October meeting, which was well attended.

Mrs. R. A. Patterson, leader of the group, opened the meeting with a Thanksgiving poem and prayer.

The Secretary, Mrs. Ross Bush, read the minutes and reports were given, folowed by general business being discussed.

In lieu of a special money-making project the ladies had decided upon a definite Thankoffering to be presented at the October meeting. A work meeting was held earlier in the month at the home of Mrs. Patterson, when the making of stuffed animal toys and scrapbooks had been started and another meeting was planned in order to finish these. These are for Christmas gifts for children at the Home for Retarded Children, etc.

The ladies were reminded of their responsibility in serving the AOTS November supper, also for the lunch at the General meeting the same month.

Resignations of retiring officers are to be handed in by November 13th, also nominations for offices vacated. Annual reports are likewise to be ready then.

Many teas and bazaars were announced for the month. A request came from Mrs. H. Waite, asking the ladies to support the efforts of the Messenger members in their sale of Christmas cards.

Programme

Mrs. H. West, programme convener for the month, presided, with a suitable thought on Thanksgiving and prayer. The lesson from Psalm 107 was read by Mrs. Claude Tucker. Comments on Thanksgiving were given by Mrs. Earl Eggleton. Mrs. J. Sharpe ably conducted the Bible study on Paul's letter to the Corinthians, which proved to be most helpful and interesting. By special request she will continue to lead in the November Bible study.

At the close of the meeting refreshments were served by Mrs. West and her group and all enjoyed a social half hour and admired the toys on display, already completed. Mrs. Morley Ayrhart voiced appreciation of all present for the hospitality shown, the splendid programme and refreshments.

Births

LANIGAN — Mr. and Mrs. John Lanigan, of Stirling R.R. 2, are happy to announce the birth of a daughter at Belleville General Hospital on Monday, October 8th, 1962.

In Memoriam

WEAVER — In loving memory of a dear wife and mother, Mary Louise Weaver, who passed away October 18th, 1961.

The one we loved has gone to rest,
God came and took her home
To be with Him in Heaven above,
Where all is rest and peace and love.
Around the Eternal Throne
Some day I want to meet her there
And then we both that rest will share.

When the breath of life is flown,
When the grave must claim its own,
Lord of Life, be ours Thy crown
Life for evermore.

—Ever remembered by George A. Weaver and family. 32-1p

CARD OF THANKS

We would like to express our sincere appreciation to the neighbours and friends in Stirling for their gift; also a sincere "thank you" to the River Valley community for their gifts and showers held in our honour. Thank you all again.

Springbrook U.C.W. Tea and Bazaar

The annual bazaar and tea of the Springbrook United Church Women was held Friday, September 28th at the Springbrook Orange Hall. Mrs. G. Broadworth and Mrs. P. Smith at the door.

Although it was a rainy day over one hundred ladies were welcomed by the reception committee composed of the President, Mrs. R. Wellman, Mrs. H. Pillen and Mrs. G. Webb.

For the occasion the hall was gaily decorated with green, brown and gold streamers with branches of maple leaves and lovely baskets of flowers adorned the platform.

Quiet music was played by Mrs. H. Haslett. Mrs. R. Wellman, Mrs. H. Pillen and Mrs. M. Mason occupied the platform. The President welcomed the visitors and members. The theme hymn was sung, followed by a prayer by Mrs. Pillen. The Scripture reading, St. John 15: 1-8, was read by Mrs. Mason. "Happy the Home When God Is There," was sung, followed by the meditation by Mrs. H. Pillen.

The President presided over the programme. From St. Paul's United Church, Stirling, a duet, "Have You Been in the Garden with Jesus," by Mrs. G. Richardson and Mrs. B. Jones accompanied at the piano by Mrs. H. West, was sung. A member of the U.C.W. group, Marmora, gave a humorous reading, "Twenty-Third Channel" instead of the Twenty-Third Psalm. Rylstone contributed a reading, "Grandma Says," by Mrs. W. Rutherford. From Hoard's, a duet, "The Lord's My Shepherd," by Mrs. K. Oddie and Mrs. E. Parr, accompanied at the piano by Mrs. L. Dunkley, was enjoyed.

Mrs. H. Brown, of Carmel, contributed a piano solo, "There Is A Fountain Filled with Love." Salem gave a reading "The Friendly Wild," by Mrs. S. Kellar. Petherick's contributed a song, "The Old Rugged Cross," by Misses Faye Petherick, Betty Lou Barnum and Rowena Kerr, accompanied at the piano by Mrs. C. Sine. St. Thomas gave a reading, "Don't Stop Praying," by Mrs. L. Tanner. Mrs. D. Wilson, of Stanwood, gave a reading, "Standing at the Door." Bethel's number was a solo, "How Great Thou Art," by Miss Donalda Heath, accompanied by Mrs. H. Elliott. Mrs. B. Woodbeck, of St. Mark's contributed a solo, "Beautiful Isle of Somewhere," accompanied by Mrs. H. West. Mount Pleasant gave a reading, "In Awares," by Mrs. B. Sharp. The first and last verses of "O Jesus, I Have Promised," was sung, followed by a prayer by the president.

Mrs. R. H. Smithrim Guest Speaker

At this time Mrs. D. Fleming introduced the guest speaker, Mrs. R. H. Smithrim, President of the Belleville Presbytery of the U.C.W. Mrs. Fleming remarked that the guest speaker is a kindergarten teacher and mother of two teen-age daughters.

Mrs. Smithrim's topic was "First Things First." She spoke about the purpose of the United Church Women — St. Mark 12: 30-33. Let's not have idols, let's put God first. Love your God. She explained that the U.C.W. purpose is to unite all women of the church. She also stated that we should have a basket full of Christian witnesses. Mrs. Wellman thanked the speaker for her inspiring address.

The President invited the ladies to the bazaar tables. There were fancy work, home cooking, farmers and candy booths. The ladies in charge of the tables did a thriving business. When the ladies had inspected and purchased the lovely array of articles for sale they were invited to the basement for lunch.

A delicious lunch was served cafeteria style and tea and coffee was served the committee in charge after the ladies were seated at the tables decorated with flowers.

The executive and committee would like to thank everyone who helped to make this bazaar and tea a very enjoyable afternoon.

October Meeting Springbrook U.C.W.

The October meeting of Springbrook United Church Women was held recently at the church with 30 in attendance, including two visitors and two pre-school children. The President, Mrs. R. Wellman, opened the meeting by welcoming the visitors and members.

The worship service was conducted by Mrs. C. Burkitt, using the theme "Praise for the Lord's Providence." "Take Time to Be Holy" was sung, followed by Mrs. H. Pillen reading Deuteronomy, chapter eight. The meditation was given by Mrs. G. Broadworth and also a prayer. The hymn, "More Love To Thee," was sung. The offering was collected by Mrs. G. Broadworth and dedicated by Mrs. C. Burkitt, followed by the Lord's Prayer.

The topic was "Thanksgiving" and was given by Mrs. A. Reid, who read a poem by Edna Jacques on "Thanksgiving." The Indians celebrated their harvest of plenty before the white man came to North America. The earliest harvest thanksgiving in America was celebrated by the Pilgrim Fathers in 1621 as an occasion for feasting and prayer. She told about the hustle and bustle, the friendly co-operation and the lively anticipation which characterized traditional autumn festivals of eighty years ago. She reminded her listeners to be cheerful and thankful to God on our Thanksgiving Day.

The Roll Call was answered by a Thanksgiving hymn. Mrs. M. Mason read the minutes of the last meeting. The Secretary asked about cards and calls made by the members during the last month. Cards of thanks for plants were read from Mrs. S. Peterson and Mrs. J. Thompson. Mrs. S. Meikiejohn also sent a card of thanks for a box of food received and also enclosed a donation of money for the U.C.W. Invitations to visit Mount Pleasant, Stanwood, St. Andrew's, Marmora, and Beulah were accepted.

Mrs. G. Webb reported the calls made by the visiting committee, Mrs. J. Rathwell and Mrs. M. Martin during the past month.

Mrs. G. Thompson reported work done at the manse. Mrs. G. Bailey, convenor for the Hickson Sale Barn, told about the plans for the sale.

Mrs. C. Burkitt, nominating committee chairman, reported that the position of secretary was still vacant.

It was decided to have the anniversary supper the latter part of October, the committee to decide the type of supper to be served convened by Mrs. E. Bateman.

A report on the Holstein-Friesian banquet being convened by Mrs. H. Mumby was read and the committee is to meet at a later date.

The U.C.W. agreed to donate the proceeds of the bazaar to the manse committee to help purchase the new dining room furniture.

A suggestion by Mrs. C. Sine about sending a baby layette to a mission hospital as has been done in previous years. Mrs. J. Spry gave a donation for the bale. Next month each member is asked to donate either an article of clothing or money for the layettee. The mission hospital where it will be sent will be decided at a later date.

For the programme Mrs. P. Smith gave a reading "On Thanksgiving Day." Mrs. T. McKeown read "Facing An Operation." A duet "Out of the Ivory Palaces," was sung by Mrs. G. Bailey and Mrs. C. Sine, with the latter playing the piano accompaniment. Twe verses of "Come, Ye Thankful People Come" was sung and the meeting closed with the Lord's Prayer.

A dainty lunch was served by the hostesses Mrs. H. Pillen and Mrs. G. Broadworth and committee and a social half hour was enjoyed.

60,000 NEW JOBS

We Canadians buy imported manufactured goods at the rate of $235 per person per year. If each of us diverted $100 of this to the purchase of Canadian-made goods, we would help create 60,000 new jobs in Ontario.

We are the world's greatest importers. Contrast our yearly total with that of other countries:

Americans spend $35 per capita on manufactured imports . . .
The British spend $75 . . .
West Germans spend $60 . . .
Canadians spend *$235 per person per year!*

If these expenditures in Ontario on imported goods could be reduced by $100, we would still be amongst the world's greatest importers. If that $100 were diverted to Canadian goods *we would add $600,000,000 to our economy and help create 60,000 new jobs!*

To accomplish this, the consumer must become "label conscious"; it is the sum of all our day-to-day purchases which can add up to the success or failure of our economy. Whenever the consumer reaches out for an imported product, he or she should ask, "Is there a Canadian equivalent?" For in most cases there is a Canadian product that is as good or better. The more money we spend for things we make, the more prosperous the people of Ontario will be!

NEWS FOR THE BUSY FARMER

LATE FALL NITROGEN FERTILIZING PAYS ON WHEAT OR GRASS

You may be surprised to know that in the late fall and even in the winter months farmers in some areas are busy spreading fertilizer on their wheat and grass. This inludes the period when growth stops in the fall until it starts in the spring. Even in winter when the ground is frozen nitrogen applications appear to be satisfactory provided there is no snow. You have more time to apply fertilizer at this time of year and bulk spreading can often be obtained at lower cost.

In selecting the best nitrogen fertilizer to use on wheat or grass the cost is one of the most important factors. Ammonium nitrate and urea are two of the common sources of nitrogen and the one that costs the least per pound of nitrogen is the best to use. Nitrate of soda or sulphate of ammonia are usually too expensive to consider. "Non pressure solutions" of liquid nitrogen are suitable for application to wheat and may be less expensive than ammonium nitrate.

Fall wheat, if it is not grown after clover or alfalfa hay, or if it has not been heavily manured, requires nitrogen in the fall, winter, or spring along with a small amount of starter nitrogen applied at seeding. Where nitrogen is required these applications have been highly profitable. A soil test by the Ontario Agricultural College Department of Soil Science can give the best indication of the fertilizer required.

Research has shown that late fall or early spring is the best time to apply nitrogen to fall wheat. When all the nitrogen for wheat is applied with the seed at seeding time, some burning of the seedlings may result. Nitrogen applications after the soil has dried up in the spring have not produced as high yields as applications during the dormant period.

INSECTS IN STORED GRAIN IN FARM GRANARIES

As you know, every year some loss occurs from infestations of stored grain insects on Ontario farms. Several species of insects cause this damage with the general term "weevil" often used for all of them.

Prevention is better than cure. Those who cleaned the storages thoroughly before harvest and treated the empty bins to prevent infestations getting a start are likely to have no trouble this fall. However, infestations often start where least expected.

What is the forecast for infestations this fall? One cannot say. The grain went to storage early in excellent condition, thus less than normal trouble would be expected. On the other hand, harvest was early, thus the grain will remain at higher temperatures in the bins for a longer period.

Should anything be done now? Periodic inspection of the grain is very important.

Even though grain is put into storage in a dry condition, it may become "tough" and infested. Moisture may condense in the surface layers and snow or rain may drift in. Examine the grain every two weeks.

Periodically put a metal pipe or rod into the grain to detect high moisture farther down. The rod will pass through "tough" spots readily. Leave the rod in the grain for at least ten minutes to see if it becomes warm. A fork handle, while not as satisfactory, could be used in place of the pipe or rod.

What should be done if an insect infestation is found?

If insects are present, use a fumigant. Fumigants for stored grain on the farm are mixtures of liquid types that form a gas when sprayed or sprinkled on the surface of the grain. The gas formed is much heavier than air and penetrates down into the grain. While these materials are toxic they can be used safely if the precautions given on the manufactur's label are followed. The grain is satisfactory for feed, milling, or seed a few days after treatment.

For further information you can refer to Publication 229 "Stored Grain Insects in Farm Storage" which has been revised and is available from your Agricultural Representative, possibly your feed and seed dealer and others. Few changes occur in this revision but an up-to-date list of trade names of satisfactory fumigants for farm use is included.

Do not allow unnecessary loss from the "weevil" group. The cost of treatment is not great but the damage cause can be considerable.

Cheese Factory Butterfat Price Up To 98 Cents

With the price of cheese increasing to nearly 38 cents per pound on the Belleville Cheese Exchange last month, fatcories in the area have been able to pay the highest prices in recent years for cheese milk.

Empire Factory in the Quinte district during July and August paid its cheese milk producers 98 cents per pound for butterfat, with 3.5 per cent milk returning the farmers $3.45 per cwt.

The Harold factory in August paid 96 cents per pound for butterfat and $3.36 per cwt. for 3.5 milk, while Menie factory paid 95 cents and $3.32½ per cwt.

Two other factories selling cheese on the Belleville exchange — Crow Bay and Boyds — paid 94 cents and $3.29 and 91 cents and $3.18 per cwt. respectively.

A report from J. A. Johnston, secretary of the Ontario Cheese Producers Marketing Board, indicates that the Board expects to be able to purchase only about one half of the cheese requirements for United Kingdom.

For the past few years approximately 20 million pounds of cheese have been exported annually to England and if the product had been available it is expected that possibly double that amount could have been sold this year.

Cooking Comments

The purpose of herbs and spices is to complement and enhance the foods to which they are added. So use them sparingly until you fully acquire the seasoning touch.

* * *

Some electrical appliances may now be fully immersed in water for washing. But, remind the home economists at Macdonald Institute, Guelph, older appliances must still be kept dry around the outlet. Check labels and instructions for cleaning procedure, or ask the salesclerk for informative literature. If in doubt, do not immerse the appliance.

* * *

If your automatic coffee-maker hasn't been used for two days or longer, rinse it with clean water before you use it. This will eliminate the stale odor. If it doesn't, your pot needs a thorough cleaning to remove all the old film and clinging oils.

* * *

Roll grated cheese into leftover pie dough. Then cut into thin strips and bake in a 475 degs. F. oven until lightly browned. These cheese slices go well with soups and as a perky salad addition.

Timely Tips

Recently, on a Guelph farm, a field rotary mower hurled a small stone injuring the operator's leg. Other similar accidents have oicurred in the past. One motorist stated that he was driving his car along a country road, when a stone, thrown by a rotary mower, hit his windshield.

Obviously these machines must be operated with care and should not be adjusted too close to the ground. Cutting a longer stubble gets the whirling blades above the stones and reduces the hazard.

Remember, the speed of the outer edge of these blades is over 100 miles an hour.

Three young teenagers recently used a tractor to drive to the next farm. Unfortunately, they all rode on the tractor. The result — one girl in hospital, who will recover; one girl who will not recover; and a boy, who escaped uninjured, but who will remember for the rest of his life that he lost control of a tractor at the wrong time. How many teenagers and younger children have also "doubled up" on the tractor, but have been luckier? How many of you farm parents have a strict rule "No passengers on the tractor"? This is one of our moral responsibilities.

When parents are able to answer the children's questions it's a sign that the kids are growing up.

Men's Bowling

The Men's Monday Night Bowling League got off to a slow start with only 42 bowlers turning out. But for some of the bowlers it was a good start. Jack Doran went to town getting a single of 384 and triple of 788. Dick Reid came up with three games of 211, 266 and 226, giving a triple of 703. Doug Nicholson had a 294 and 201. Other bowlers with 200 and over were Al Boersna 263, Ray Poste 230 and 220, Doug McCrory 266, W. Barnard 252 and 225, Bob Taylor 236, J. Armstrong 236 and 278, Clive White 211, W. Blakeley 216 and 209, Ron Williams 216, Ray Mallory 257 and 204, Fred Mallory 202, Keith Johnson 264 and 213, R. Scea 202 and 204, D. Scea 234, Al Tanner 250, B. Hemmerick 229.

On October 8th no one came up with a 300 game, not that Clive White wasn't trying. He came up with a single of 286 and Ray Rose made a triple of 718 with games of 240, 227 and 251. Other good games were P. Rollins 234, Garry Poste 204, George Noble 216 and 221, Cliff Short 204, 247 and 264, H. Parsonson 208, Ray Mallory 214, J. Doran 249, W. Blakeley 201, C. White 226, D. McCrory 203, D. Taylor 240, Ray Poste 203 and Doug Nicholson 224.

October 15th — Once again there was a game over 300. It was rolled by C. Shortt, who also had a 750 triple. It seems that everyone is trying to make the 800 triple. Here are the bowlers that rolled 200 and over: C. Shortt 261, Al Boersna 200, Doug Nicholson 201, Keith Johnson 242, 232 and 239, D. Scea 226, 224, W. Barnard 273, B. Elliott 237, B. Tea and Bazaar At Mt. Pleasant Very Successful

On Thursday afternoon, October 18th, over one hundred women from fifteen organizations joined the ladies of Mount Pleasant Rawdon for a successful tea and bazaar. The Church was decorated with bouquets of autumn blooms and the weather was ideal.

Mrs. Mac Sharp provided quiet organ music as the guests were arriving. Mrs. Percy MacMullen and Mrs. Earl McAdam were in charge of the finances and the registration book. The ushers were Mrs. Burton Sharpe, convener of the tea and Mrs. Robert Merrick.

Guests were in attendance from St. Paul's Stirling, English Line Tabernacle, Hoard's, Wellman's, Burnbrae, Eggleton, St. Andrew's Stirling, St. John's Stirling, Springbrook, Carmel, Salem, Bethel, West Huntingdon, St. Andrew's West Huntingdon, West Huntingdon United, Grace Chapel and Wooler.

The guest soloist, Mrs. Sidney MacDonald, of St. Paul's, Stirling, with Mrs. Harold West as accompanist, contributed a solo to close the devotional. Later she rendered two selections, one of which was that old favourite "Smilin' Through."

There was also assorted vegetables, eggs, apples, small jars of jam and pickles and many other attractive items.

There was a large supply of luscious tarts, cake, pies, cookies, buns, etc. The assistants were Mrs. Allen Reid, Mrs. Oscar Merrick, Mrs. Lindsay McKeown, Mrs. Harry McAdam, Mrs. Clarence Scott and Mrs. Norman McConnell.

The apron booth was at the northwest with approximately thirty-five aprons, made of various materials and fashioned in coverall, bib, half style and novely patterns. Mrs. Donald Knight was the convener and her assistants included Mrs. Will Jeffs, Mrs. Irvin Potts and Mrs. Thos. Sarles.

The east half of the hall was arranged very attractively as a tea room with rows of long tables covered with white cloths and centred with small bouquets of autumn blooms.

The refreshments consisted of a salad plate luncheon with each plate arranged in readiness. Large glass plates of assorted cookies and small one-bite cakes with tea was served.

The kitchen and refreshment conveners were Mrs. Douglas Campbell and Mrs. Ross Jeffs.. Their assistants included Mrs. Robert H. Hoard, Mrs. James Hoard, Mrs. Ralph Jeffs, Mrs. Stanley Williams, Mrs. Harvey Couch, Mrs. A. Farnham and Mrs. Garth Joslin.

THE BIBLE TODAY

In 1862, the second complete Bible in a North American Indian language was published. This was in the Western, or Plains Cree, for the Indians in the Prairie Provinces. There will be celebrations in Canada this year to observe the 100th anniversary of this event.

The first translation in this tongue was the Gospel of St. John by the Rev. William Mason. Folowing this Mr. Mason, in collaboration with others, completed the translation of the New Testament. This was published by the British and Foreign Bible Society, London, England, in 1859.

Two years later, Mr. Mason, with his wife and several Indian Christians, finished the Old Testament in Plains Cree. The complete Bible was published by the Society in 1862.

In 1961, the Plains Cree Bible was reprinted, as there continues to be a demand for these Scriptures, in spite of the inroads of the English language The annual distribution in all Cree dialects is about 500. Copies are sold for $2.50, which is $1.25 below production cost. The Rev. James Evans invented the Cree syllabic script in 1841.

Best Advice Is Don't Slip Below 60

The Ontario Department of Education is officially advising Grade 13 students they don't have much hope of entering university if they achieve a mark of less than 60.

C. W. Booth, Deputy Minister of Education, said in a memorandum recently such students would be well advised to repeat subjects if they earn less than 60 in departmental examinations.

The only advice for university-bound students now in Grade 13 is: try not to slip below 60 on any subject.

Following is a copy of the address:

Dear Doug and Marion:

We have come to your lovely new home tonight to say goodbye to your stay in our neighbourhood. We represent all the people in our school section.

While you will still be close to us in miles, you will no longer be our neighbours in the true sense of the word. In the five years you have been in our midst you have as a family, endeared yourself to all of us.

You, Doug will always be remembered for your ever present smile and kindness. You have at all times been a gentleman and we have felt truly welcome in your home.

We shall remember you, Marion, as a warm hostess, as a willing participant in every church and community activity, and as a good and enduring friend.

Janice has her own special place in our hearts as a sunny, happy little girl, full of friendly curiosity, who has always been first at the door to say "Hi!" Your Sunday School friends will miss you, Janice, and we hope you will remember all of them.

Baby Cheryl will not perhaps remember us but we will watch her growth and progress with interest, as one of our babies.

We delight in your first house of your own, thinking with the poet "that it takes a heap of living to make a house a home."

As you go about your daily tasks, we hope you will remember your old friends with pleasure and we hope these gifts we have brought will serve to remind you of the many friends you have made at Mount Pleasant and the high regard in which you are held by all of them.

St. Paul's U.C.W. Unit Three

Twenty-six ladies attended the Unit Three meeting of St. Paul's United Church held at the home of Mrs. Grant Stapley on Tuesday evening of last week.

Roll call, "a Bible verse," brought out many texts to correspond with the theme.

Mrs. R. Tucker read the minutes from the previous meeting. Miss Mary Hulin, Treasurer, gave a full financial report.

The President announced a number of coming events of the various churches.

New business included an assistant required for visiting. Mrs. Elwood Bateman volunteered to help Mrs. H. Francis until the end of the year.

Springbrook Local Ont. Farmers' Union

The October meeting of Local 171 of the Ontario Farmers' Union was held in the hall at Springbrook. The meeting started with a pot luck supper supplied by the ladies of the Union. After the supper the meeting was held upstairs.

Murney Bateman was chairman and opened the meeting with the singing of the Queen.

Jeanne Williams gave a report of the Hastings County Annual Meeting and of several other county meetings which she had attended as lady vice-president of the Ontario Farmers' Union.

The Ontario Farmers' Union Convention is to be held in Lindsay again this year and members of the Local were urged to try to attend for at least one day.

Murney Bateman gave a brief account of the Locals' activity during the year. It would seem that as in a lot of other organizations some of the members are content to sit back and let a few do most of the work. In order to have a successful Union everyone must pitch in and do their share.

Murney Bateman declared all offices vacant and Wes Finch was appointed chairman and Mrs. Carl Spry, secretary, for the election of officers. The officers for the next year are as follows:

President — Murney Bateman

1st Vice-President — Bill Heath

2nd Vice-President — Delbert Mumby

Secretary-Treasurer — Morton Reid

Directors — Harper Bateman, Wes Finch, Glenn Heath, Percy Reid and George Williams

Auditors — Wes Finch and Delbert Mumby.

Mrs. Percy Mumby offered her home for the November meeting. It was unanimously decided that the meetings should start at 8.30 sharp and have the business over at 10.30. It is hoped that this will increase attendance at the meetings.

Entered Into Rest

LEWIS PAULEY

Surviving are his wife, the former Margaret Anne Davidson, one son, Cecil Pauley, at home; two daughters, Mrs. Howard (Hazel) Wallace, of R.R. 2, Harold; Mrs. Gladys Dean, of R.R. 1, Thomasburg, and two sisters, Mrs. Nellie Hutcheon, of Burnbrae, and Mrs. Mary Thrasher, Campbellford. Also surviving are seven grandchildren.

On Tuesday evening a L.O.L. memorial service was held at the funeral home.

A careful motorist always start a trip by driving at moderate speeds until the car has a chance to warm up. The Ontario Safety League points out that tires also benefit from a warming up period. A cold tire bunches at speeds over 50 m.p.h. This induces flat spots, and the the tire wears out faster.

Nature grows far more trees than could be planted by man.

In Memoriam

EDWARDS — In loving memory of a dear husband and father, Al Edwards, who passed away one year ago, October 25th, 1961.

Sweetest rest that follows pain,
We who loved him sadly miss him,
But trust in God to meet again.

—Ever remembered by wife Edith, daughters Janice and Marilyn and son-in-law Ted. 33-1p

HOARD — In loving memory of our dear wife and mother, Jessie Isabell, who passed away October 27th, 1959.

JOHNSTON — In loving memory of our dear mother, Mrs. William Johnston, who died October 30th, 1961.

At night the silent stars look down
On a grave not far from here,
Where sleeps the one we can't forget,
The one we loved so dear.
Her memory is a keepsake,
From which we'll never part.
God has her in His keeping,
We have her in our hearts.

Ever remembered by the family. 33-1p

Stirling Seniors Lose To Marmora

The crying towels are out again
(We surely are in a fix)
For Stirling dropped another game
The score 32 to 6.

The lone 'sweet' Stirling touchdown
Was made by Albert Lawes
Who ran the distance, seventy yards,
And yet made not one flaw.

One casualty made darker though,
The Seniors' future plans
As Jim Johnson's knee was injured
He'll now watch from the stands.

Let's hope the Senior fellows,
Can win the future game.
'Remember that last victory,
And do it all the same.'

Sidney Township Buys Fire Pumper

Sidney Township Council has purchased a new 650-gallon pumper and will house it at the Batawa fire station.

Batawa fire chief John Aquino and his volunteer fire fighters have agreed to operate the pumper at township fires.

"We will still keep our present fire fighting agreement with the city of Belleville," stated Reeve Hamilton, "our own pumper to be used mainly in the west end of the township."

Office gossip travels faster over grapevines that are slightly sour.

Have you ever noticed when a garage man makes a mistake he adds it on your bill; when a carpenter makes a mistake, it's just what he expected; when a preacher makes a mistake, nobody knows the difference; when a lawyer makes a mistake, it was just what he wanted, because he has a chance to try the case all over again; when a judge makes a mistake, it becomes the law of the land; when a doctor makes a mistake he buries it; but when the Editor makes a mistake — good night!

THRIFTY BUYS IN MEAT

Take time to thoroughly tour the meat counter next time you shop — the Consumer Section, Canada Department of Agriculture points out some of the thrifty meat buys you may have overlooked.

Beef Cuts

Shoulder Roasts — Cross rib, short rib and blade make excellent pot roasts. They should be cooked covered with very little water either on top of stove or in the oven. A pot roast is a complete meal-in-one when cooked with prepared vegetables around it. Allow ¼ to ½ pound of meat for each serving of cooked meat you require.

Rib Steaks — Cuts from the standing rib section are popularly priced. Thin, well-trimmed steaks may not look as elegant as inch-thick ones but they are less expensive.

Round Steak — Buy a complete round steak and cut it into top and bottom round. Ask the butcher to show you the top round — it has one complete muscle and is tender enough to panfry or broil. The bottom round is less tender and should be cooked in liquid as "swiss steak."

Flank Steak — Is a flat, lean piece of meat with coarse fibres, usually scored or pounded to make it tender. A 1½ to 2 pound flank steak can be stuffed with well-seasoned bread stuffing and will give 6 servings. It should be browned and then braised in liquid until tender (about 1 hour).

Minced Beef — May be either hamburg, minced chuck, or minced round steak. The minced round is the most expensive but contains the most lean meat.

A mixture of 1¼ pounds minced beef and ¾ pound minced pork makes a nice combination of meat patties or meat loaves.

Stewing Beef — There's nothing like a good beef stew with lots of vegetables for a satisfying meal. Two pounds of stewing beef with vegetables will make 6 substantial servings . One pound of stewing beef and one pound of beef kidney makes a delicious beef and kidney pie which is also enough for 6 servings.

Lamb Cuts

Lamb-in-the-Basket — Is usually the least expensive of the lamb cuts. Whole or part of the front is sold in this way. In a whole lamb front of 7 to 8 pounds, there would be a shoulder roast, several shoulder chops and stewing meat.

Stewing Lamb — 2 pounds boneless stewing lamb will make a tasty stew or curried lamb for 6 servings.

Stewing pieces such as shank, breast and neck are good cooked slowly in tomato juice or a spicy barbecue sauce.

Shoulder Chops — Are meaty and flavourful and a few cents less than rib or loin chops. They may be panfried, broiled, or baked in the oven.

Lamb Hearts — Small lamb hearts weigh only 3 to 5 ounces each so you would need to buy one for a serving. They are usually stuffed with a well-seasoned bred stuffing and baked in the oven.

Pork Cuts

Smoked Picnic Shoulder (bone in or boneless) — Usually sells for less than leg hams. It may be baked, boiled or pressure cooked.

Shoulder Pork Chops — Usually sell for a few cents less per pound than rib or loin chops. They are less tender but can be panfried, baked or braised in liquid.

Pork or Beef Liver and Bacon — This makes a nourishing and economical meat. Panfry the liver in the fat left after frying the bacon. You will get three to four servings from one pound of liver.

Mixed Grills — Try sausages or sausage patties, and liver (or kidney) and bacon broiled together with tomatoes and mushroom caps for a tasty supper dish.

OF MANY THINGS

(By Ambrose Hills)

DO IT WELL

The young fellow worked on a Winnipeg daily, a beginner. I discovered him practising the old routine, "Now is the time for all good men to come to the aid of the party." He was using the touch system taught in the business colleges.

"How come?" I asked him. "Haven't you noticed most of the old-time reporters bang out their stories with four stiffly-pointed fingers?"

"Sure," he grinned. "They sound fast, but they're not. If I'm going to be using a typewriter as one of the tools of my trade, I want to use it right. Even if I turn out to be a lousy reporter, I'll be a good typist.

My guess is that he'll turn out to be a darn fine reporter . . . or darn fine at whatever he tackles.

Years ago, between high school years, I worked for a Master Farmer in Manitoba. One day, stooking, we saw the neighbour's hired hand at work in the next field. My boss groaned. "Give me half an hour with that man and I could teach him to stook right!" I could see that it pained him to think of a man going on and on, stook after stook, handling the sheaves improperly, doing less than a perfect job. If that hired man had had the gumption of my young newspaper friend, he'd have hopped the fence and asked for a lesson. Like so many of us, however, he was content to go on doing things half right for the rest of his life.

Poor performance is a sad thing to watch. There's a waitress in a cafe near my office who hasn't learned how to make change properly although she's been at it some years to my personal knowledge. Younger girls in the same cafe do it right, do it right, do it faster, because they learned the proper way.

Whether you bowl, play pool, stook, cook, combine, plow or type, learn how to do it right. Learn early, so correct movements become automatic. Don't be content to bumble along. Even the morning shave can be accomplished with more grace and speed if you look for tips from the experts — ask your barber about it! If each of us learns to perform his tasks well, we'll contribute that much more to the welfare of our country. Let's quit being sloppy Joes and start to do our jobs well!

Provincial I.O.D.E. Conference At Peterborough

Today's changing world picture demands that members of the I.O.D.E. be alert, knowledgeable and aware, Provincial President Mrs. W. R. Morrison, of Hamilton, said as she opened a series of department conferences of the semi-annual meeting of the Provincial Chapter of Ontario held in Peterborough last week.

She said chapters are encouraged to study world affairs, democratic action and civil defence.

"Today all men are neighbours. To I.O.D.E. members all men are brothers. This is proved over and over again in the various phases of our work, but nowhere is it more evident than in services at home and abroad."

She said early I.O.D.E. activities were almost exclusively patriotic, but when the need for war services passed, the Order turned to the needs of communities, and then to furthering Commonwealth relations with aid to hospitals, schools and students in India and other countries.

Civil defence department convener, Mrs. M. E. Clarke, of Peterborough, used small models of approved types of family bomb shelters and charts to illustrate protection from nuclear attack.

Mrs. G. L. Baldwin, of St. Mary's, world affairs convener, said democratic action is combined in this department "set up to direct and encourage a better understanding of Canada, the Commonwealth and Empire of world affairs through informative papers — hoping to counteract subversive propaganda and activities."

Mrs. J. A. Stuart, of Hamilton, "services at home and abroad" department convener, said last year $122,000 was spent in Ontario assisting the needy.

"Members spent hundreds of hours helping in clinics, hospitals and sanatoriums, and through bazaars, rummage sales and card parties," she said.

Motorists are reminded by the Ontario Safety League that the vital element in traffic safety is not how fast you drive, but how fast you stop.

October Meeting Wellman's W.I.

The October meeting of Wellman's Women's Institute was held at the home of Mrs. Chas. Dunham on Wednesday afternoon, October 15th, with 17 ladies and 6 children present. Mrs. Byron Seeley presided over the meeting in the absence of the President and opened with the Institute Ode, followed by the Lord's Prayer.

The minutes of the last meeting were read by Mrs. Doug Clancy in the absence of the Secretary. She also read the correspondence and matters of importance were dealt with.

Mrs. Seeley expressed a cordial welcome to the visitors. Roll call, "One way I have of chasing the blues," was well answered with various remedies.

Mrs. Ken Tompkins, the Health Convener, took charge of the meeting. The motto, "A merry heart will kill more germs than medicine," was well prepared and presented by Mrs. Jim Pollock. Readings to follow the motto were given by Mrs. Burton White, "Hustle and Grin," and Mrs. Alfred Akins, "Two Ways of Getting Up." Mrs. Doug Clancy also favoured with a reading, "Think Only of These." Mrs. Fred Beckett contributed a piano solo, "Waltzing Matilda" and "Glow Worm."

Mrs. Tompkins gave a very interesting introduction to Mrs. Wm. Morton, Stirling, the guest speaker.

With the topic of the meeting being health, Mrs. Morton based her talk along the same line as the motto. Dwelling mainly on syco-symatic illness, her talk was very interesting and informative, covering the three different types of the illness, its symptoms and cures.

Mrs. Gerald Russett expressed the thanks of the Institute to Mrs. Morton and presented her with a small gift.

Mrs. Tompkins thanked those taking part on the programme and also Mrs. Dunham for opening her home. She closed the meeting with the Institute Creed, followed by the Queen. A delicious lunch was served by the hostess and her assistants and a social half hour enjoyed.

Are you sick of cleaning that bath tub ring every time you turn the light on in the bathroom? Leave a bottle of liquid dish detergent right beside the tub and also leave orders that a capful of it is to be thrown in before any grubby feet are. ELECTRICITY ON THE FARM

Cost of goods and services to Ontario farmers rose 19 per cent in the 10-year period ending in 1961. During the same time the average cost per kilowatt-hour of electricity dropped 3½ per cent.

Minister of Health Exhorts Nurses To Great Ideas

"Men have died in scorn and ill repute because they clung to their ideas — ideas that later proved a boon to mankind." Such was the challenge given to the first graduates of the new Nightingale School of Nursing, Toronto, by Hon. M. B. Dymond, Minister of Health. The graduation of twenty-three nurses took place on Monday, September 10th in Eaton Auditorium. The Nightingale School of Nursing is owned by the Province of Ontario and sponsored by the Ontario Hospital Services Commission. It was opened in 1960 and its course is two years in length, after which graduates are eligible to apply for registration.

Dr. Dymond strove to impress upon the nurses the importance of ideas to the welfare of mankind.

"Ideas are like potent tonics," he said. "They are lifegiving minerals and vitamins to successful men and organizations. Our eyes must be open, our ears must be attuned and we must be taught to discover them promptly as they appear."

The Minister cited man's placing an object, with great precision on the moon "but men haven't yet learned to live at peace with their fellow men."

"What have we got that the Russians or the Chinese want?" Dr. Dymond asked. "What do we want that they have? I do not know," he went on. "I do know that each side is dissipating resources to protect us from each other. There is still too much poverty and pain, misery and suffering, intolerance, lack of understanding, grasping, greed, self above everything else."

The graduates were told there is more to nursing than science. Every nurse, the Minister observed, develops a peculiar philosophy of life because she is always so close to, so much a part of life. She is bound to think often about "man's inhumanity to man," the futility of her own efforts to relieve suffering, to sustain, to prolong, to enhance life when others seem to be equally or more zealous in their attempts to shorten life by destruction or, even worse, to so damage the emotions that life becomes hell.

"Your philosophy has a general application so it's to be shared," Dr. Dymond concluded, "a stimulating power that should . . . give birth to ideas. You should constantly be seeking new paths that will help humanity over the hill to a new age, an age of understanding, usefulness, tolerance and service."

The Good Driver

DARK DANGERS

Superstitious fear of the dark — the idea that goblins come out when the lights go out — is kid stuff. But a healthy respect for the real dangers of darkness, especially when you're driving a car, is a mark of maturity. So says Arthur R. Forster, of General Motors Highway and Traffic Safety Section, quoted by the Ontario Safety League.

Unfortunately, some night drivers behave as if the sun shone round the clock, or as if they were radar-equipped. Many persons who never would strive confidently across a dark room or down a dark alley often drive at night with reckless disregard for the limited distance they can see.

Even among skillful and sensible drivers who know that dark streets and highways call for extra caution, few are aware of just how greatly traffic hazards go up when the sun goes down. The fact is that, mile for mile of travel, the highway death rate after dark is triple the daytime rate.

The high toll usually involves those whose driving is either too much on the offensive, or insufficiently defensive. Drivers who have a constructive fear of the dark can be almost as safe at midnight as at noon. It's mainly a matter of keeping your guard up and your speed down — and having good vehicle lights.

The principal reason for the greater danger in night driving is, of course, reduced visibility. What you don't see can hurt you.

Drivers must depend largely on their own headlights to provide a clear, safe view of road and traffic conditions. Headlights must be kept in good operating condition and must be properly used; and they should be kept correctly aimed.

Correct aiming is more important than most drivers realize. Studies have indicated that, mainly because of routine bumps and jolts, more than half the cars on the road have badly aimed headlights, which throw the beam too high, too low or too far to the side.

The Ontario Safety League emphasizes that the most important rule for night driving is: "Don't outdrive your headlights."

NEWS FOR THE BUSY FARMER

Furrow and Fallow

By Fairbairn

Ontario's 25 million dollar potato crop shows signs of being the best in quality in some years. Acreage planted this year was a little below 1961 and yields per acre are just slightly less than last year's bumper crop. However, most crops harvested by mid October showed a high percentage of number one grade and a tremendously high percentage of large potatoes despite slow growth earlier in the season. Losses from disease and insect injury and lack of maturity are extremely low, while hundreds of tests indicate average dry matter is often over 20 per cent. This means a better potato for cooking with improved keeping quality, so producers will offer Ontario consumers a spud to compare with any grown on this continent.

Blight has reduced the Quebec crop while both New Brunswick and Prince Edward Island are having difficulties with weather and disease. Idaho had frost early in September, so prospects for the large Ontario crop are good. Both producers and dealers have been taking steps in recent years to assure a steady flow of good quality Ontario potatoes to the local market. This year there is more farm storage and more dealer storage space. Both farmers and dealers have also installed more modern facilities for harvesting and packaging so they will be able to supply more of the local demand. Ontario still imports over half of the potatoes consumed in the province. There has also been an increase in Ontario potatoes used in processing — for such things as instant mashed, french fries and chips.

Ontario growers have proved they can grow varieties popular in some of the more famous potato-growing areas. For example, farmers in Durham County have been catering to special markets for Idaho's Baker or Russett Burbanks and the latest word is these potatoes have been grown successfully in northern Ontario. This year Toronto dealer, S. Hisey & Son started a production programme with some growers in the Alliston area raising Netted Gems. Results have been much better than anticipated with yields of marketable potatoes over 400 bags to the acre and very few off grade.

These potatoes are being marketed in three different packages — after washing; a ten-pound poly bag; a 50-pound bag for the institutional trade and a 25-pound carton containing 50 one-half pound potatoes individually wrapped in foil. With yields down in Idaho and with a larger than normal crop of small potatoes in that state, the wheel would have turned full cycle if Ontario ended up shipping potatoes to Idaho!

As a matter of fact, present indications point to an increased acreage of Netted Gems in Ontario in the next few years. There are a few things for growers to think about if they are considering switching to this variety. First, beware of net necrois, the disease that follows virus leaf roll in storage and the main factor in heavy losses in British Columbia when this variety was so popular there. Second, paying particular attention to certain production factors besides the standard things such as selecting good, clean seed, a deep seed bed and a good rotation. Netted Gems require a high phosphate fertilizer, they should be spaced at least 16 to 18 inches in rows, planted early, with a large seed piece, and irrigated if at all possible.

Today's Tidbit

This is the time of year cows can get dirtiest with the assistance of muddy yards and longer hair. Thorough washing of udders and use of filters will keep milk clean.

Garden Shorts

You will soon be putting your lawn mower away for another year. Have you checked to see whether it needs any repairs? If it does, now is the time to get them done. Not only will you avoid the spring rush when the repair shops are so busy, but also you will be sure of getting off to a good start next spring when the lawn needs its first cutting. If everything is working well, don't forget to clean and oil the mower to prevent rusting; and be sure to empty the gas tank and drain any gas that may be left in the carburetor.

With a little care, your garden hose can come through the winter in good condition. Hang it up carefully, avoiding sharp bends or kinks. Be sure that there is no water left in it that may freeze.

Quality Meat Sire Policy Announced By Minister

Hon. Wm. A. Stewart, Ontario Minister of Agriculture, has announced a Quality Meat Sire Policy for the Province. "While there has been a marked improvement in the type and quality of Ontario's beef cattle in recent years, the Quality Meat Sire Policy, if properly applied, can contribute materially to even greater improvement," said Mr. Stewart.

This policy, which becomes effective immediately, is designed to identify sires capable of producing top quality offspring. In this context quality refers to percentage of lean meat, relationship of fat to lean, and marbling. The ideal carcass possesses a high percentage of well marbled, lean meat and has an even covering of fat but is free from any evidence of over-fatness.

Scientific tests have shown that there is a direct correlation between the area of lean meat in the ribeye and the total amount of lean meat in the carcass. Consequently, in the test that has been devised, meatiness is determined by measuring the area of the ribeye. In a really meaty carcass there should be at least two square inches of ribeye for every hundred pounds of carcass weight when the cross section cut is made between the twelfth and thirteenth ribs. Thus in a 500-pound carcass the area of ribeye should be at least 10 square inches.

Fat covering is obtained by measuring at three points over the ribeye and averaging the three measurements. In a choice carcass the fat thickness should not exceed 0.13 inches per 100 pounds of carcass weight.

Carcasses that do not carry approximately this amount of fat are not likely to show much marbling, the characteristic which adds juiciness and flavour to the meat. A good carcass should show evidence of a considerable amount of marbling.

Another important factor in beef production is weight for age, because the fastest growing animal makes the most economical gains. Consequently rate of gain is considered in the quality meat sire programme. Test animals must be slaughtered on or before reaching 480 days of age. In order to be eligible for scoring, the carcasses of steers must have a weight per day of age of 1.25. Thus the carcass from a 480-day-old steer must weigh at least 600 pounds.

To complete a test under this policy, ten or more of the progeny of a sire must be slaughtered and the carcasses scored, ten being the minimum number required for an accurate appraisal of a bull's breeding ability. Animals comprising a test group may be either steers or heifers, pure-breds or grade. Of course the sire must be pure-bred and registered. Because most Ontario beef herds are relatively small, the test may be extended over a three-year period. By extending the test over this period of time breeders will not be required to castrate many bulls in any year in order to include steers in the test.

"This policy complements performance testing policies already in operation," said Mr. Stewart in concluding the announcement. Since 1950, beef breeders have had an opportunity to test their young bulls from the standpoint of rate of gain, a hereditary characteristic. However, carcass quality is also inherited, and by participating on both programmes a breeder can obtain information which should aid him in selecting the kind of cattle in demand by the commercial producer — cattle that make rapid and economical gains and at the same time yield top quality carcasses.

79th Anniversary Services St. Andrew's West Huntingdon

St. Andrew's Presbyterian Church, West Huntingdon, celebrated its 79th anniversary on Sunday, October 21st. Fine weather prevailed and the services were largely attended.

The services were conducted by the pastor, Mr. T. D. Dodds. Special music was under the direction of the choir leader, Mrs. John McInroy and included at the morning service an anthem, "The Window of Prayer," with the solo part taken by Mrs. A. Hassall, and a duet part taken by Mrs. A. Hassall and Mrs. Wm. Donnan.

At the evening service the Beulah United Church Junior Choir was present under the direction of Mrs. Keith Bray and rendered two anthems, "Come To Me" and "Holy is the Lord."

Mr. John Haggerty, of Stirling, presided at the console of his Lowery organ for both services.

Flowers were placed in the church by Mrs. J. C. Sills and family in memory of John Chester Sills.

Morning Service

Mr. Dodds chose for his morning message "That Rock was Christ — the Church" — Matthew 16: 18 — And I say unto thee, that thou art Peter and upon this rock I will build my church and the gates of hell shall not prevail against it.

Paul writes it was by God's grace that, like a rock I laid a foundation which will endure. It is upon Jesus Christ that all who are building will base their work. There is no question about the foundation, but let builders be sure of their material and build only what will endure.

The Church of Christ is built on a solid foundation by your ancestors who honoured the Lord and the Sabbath Day. These true and faithful men and women who gave you your Christian heritage, are long since called to rest. You are entrusted to carry on their work. What kind of material are you going to use, solid or sinking sand?

Evening Message

Mr. Dodds took his text from Deuteronomy 19: 14 — Thou shalt not remove thy neighbour's landmark, which they of oldtime have set in their inheritance; which thou shalt inherit in the land that the Lord thy God giveth thee to possess it.

No encroachments on private property are allowed, the boundaries of which go historically far back. Land throughout Deuteronomy is God-given. That is what we forget to realize even in this present modern day.

Has man the right to remove what God has created? If man has the right to remove the material things of life to help progress in these modern times. Let him be very careful that he does not desecrate Holy Grounds. But man has no right or privilege to remove the ancient landmark of the Church of Jesus Christ.

The head of the Church is Christ. The Church is on the earth and of the earth; yet he on earth hath union with God the Three in One.

Who will become the ancient landmark of the Church of Jesus Christ? Will it be you and your children? God has blessed you with a wonderful heritage, accept with thanksgiving and give it to your children.

Hunting Safety

The Ontario Safety League claims mistaking other hunters for game is the most prevalent cause of hunting accidents.

So protect the other fellow — be sure before you shoot. And protect yourself — wear safe colours — flourescent orange has been proven the best. A safety vest of this colour worn over your hunting jacket is good life insurance.

* * *

There's a hazard of hunting for which you should be prepared — you can become lost. If you do, don't panic — keep a cool head and stay right where you are. Fire three shots in quick succession — this is the SOS of the hunter. Repeat at half hour intervals. Light a fire and keep warm and comfortable until someone finds you.

* * *

Stray bullets cause many hunting fatalities each year. So it's not enough to be sure of your target before you pull the trigger — be sure the bullet will do no damage if you miss the target.

* * *

Never shoot at game on a ridge or knoll where there is no protective back drop of trees or higher ground. And never shoot a bullet at a flat hard surface or a surface of water — it will usually ricochet and become a stray bullet. Remember — stray bullets can maim and kill.

Sin has many tools, but a lie is the handle which fits them all.

CONSERVATION NEWS

DO'S AND DONT'S WHEN HUNTING

Do

1. Get permission prior to hunting on private property. It is very easy to be a gentleman when talking to a landowner. Try it!
2. Take legal limits only.
3. Be a true sportsman. Share your game with the landowner. After all he did feed it all summer.
4. Adhere to laws pertaining to game.
5. Be careful with firearms as we do want you to hunt again.
6. Carry necessary hunting licence and show it to your conservation officer on request.

Don't

1. Fences have a specific use — don't break them down.
2. Don't use abusive or foul language when talking to landowners. This creates the impression that scruples are limited.
3. Don't exceed limits just because the opportunity presents itself. Game is not aware of legislative limits.
4. Don't be a game hog as they are not welcome in the forests.
5. Don't throw away lighted matches or smoking material or you will not be hunting next year as game cannot live on bare rock.
6. Don't cross fences or other obstructions with loaded firearm as it takes at least 20 years to produce another sportsman.

OUTDOOR ETIQUETTE

A real hunter is also a conservationist — he does not kill indiscriminately, he obeys the law. He also protects our forests — is careful with fire. He does not cut trees unnecessarily. And he does not kill birches by stripping their bark.

Dr. W. H. Brittain, famous Canadian Forester, Curator of the Arboretum (Morgan Arboretum), Macdonald College, McGill University, Montreal, has this to say regarding the stripping of birch bark from trees:

Wives there be who kill their husbands,
Putting poison in their tea;
Men there be who slay their women
Push them overboard at sea.
But the meanest of the wretches
Though through all the world you search
It the lout devoid of feeling
Who would peel a silver birch.

Stirling Women's Institute News

On Tuesday of last week ten members of the Stirling Women's Institute attended the "Open House" sponsored by the Auxiliary, of which Stirling W.I. belong, at the Hastings County Home for the Aged.

Some 500 people mingled about and patronized the handicraft tables, made by the inmates, also home baking and sewing tables by the Auxiliary.

Several inmates were visited by friends.

Mr. S. Hatton and Mrs. Carl Bateman, "our friends," welcomed everyone to the dining room, where a lovely lunch was served at the time of the visitation. Mrs. Gerald Irvine, representing Chatterton W.I., and Mrs. H. Varty, the Warden's wife, poured tea. Mrs. Clarence Holmes, President, along with Mr. and Mrs. Yorke, greeted the guests at the entrance.

Those who haven't at any time visited the home are missing a visit worth while. Not only to bring cheer to those within, but for yourself to learn how things in general are carried out. The handicraft made by these people is wonderful.

LEGION NOTES

Some time ago, we were asked by a youngster to explain just what Remembrance Day really is. What does November 11th mean to our children? Our answer is this:

On November 11th, Canadians all across the country will stop and remember the men who were killed in wars. In over 2,000 cities, towns and villages people will stand in silence and remember the more than 104,000 brave Canadians who were killed. That is why November 11th is called Remembrance Day.

On that day, everyone wears a poppy, a reminder of the blood-red flower which grew in the fields where many of our men died. Much of the fighting was done in a place called Flanders. This was during the war of 1914-1918. Every spring, the soldiers in the trenches noticed the red flowers blooming on the battle-grounds. And, as more and more of their friends were killed, the soldiers noticed that the poppies bloomed over their graves.

When the war was over and when the soldiers came home, they still thought of all their friends who were buried in Flanders. Each time they thought of the graves, they thought of the red poppies which grew over them. It was then that the men who came back from the war decided that they would wear a poppy each year to show to everyone that they remembered their friends.

November 11th was the day on which the fighting stopped in 1918. The men who had been in the war picked that day each year to wear a poppy. Other people who had not been in the war, but who loved the soldiers who had been killed, also wanted to show that they remembered these brave soldiers. So they also wore a poppy.

There were not enough real poppies to go around. Then some of the men who were wounded and could not work at other jobs, began to make poppies out of cloth. That is why today everybody wears a poppy which is not a real flower, but which reminds us of the real poppies which grew over the graves of the men who died.

For many years after the first war, children stood with their parents on Remembrance Day. Everyone was silent, and all wore a poppy and they all thought of the men who had been killed and crippled.

By the time many of the children grew up, there was another war. The boys who were now young men went to war. Many of these young men went to the same places as the men they used to remember. A lot of these young men were killed in the Second World War.

When the war ended, more people than ever wanted to wear a poppy; now there were over 104,000 dead sailors, soldiers and airmen to remember. All of these people went to war to protect Canada. They went to war to protect the people who were in Canada then, and also the people who would be born in the future — people like yourselves.

The men died so that you could enjoy all the good things in your life. They died so that your home would be safe, so that you would get the chance to go to school and to the church of your choice. They also died so that you could make friends with whomever you please.

Perhaps you didn't know these men who died in war. But they knew you. They wanted you to live in peace. Therefore, on Remembrance Day, when everybody wears a poppy and stands in silence it is like "thank you" to those who died for us.
